

CITYWIDE HOTEL WORKER MINIMUM WAGE ORDINANCE
Frequently Asked Questions
July 1, 2015

- 1) If a hotel normally has 300 or more guest rooms but 80 of those rooms are under renovation, can the hotel be waived/exempt since they have less than 300 rooms that can be occupied?

Answer: No, the ordinance does not use the term "occupied" to determine the room count.

- 2) The hotel is planning on contracting with a company to provide valet services. Is the company providing valet services required to pay the CHMWO?

Answer: Section 186.01 D defines Hotel as including "any contracted, leased or sublet premises connected to or operated in conjunction with the building's purpose, or providing services at the building." Therefore, the Hotel's contractor which provides valet services to the Hotel's customers is "providing services at the building" and must comply with the CHMWO and its provisions.

- 3) Is a specific hotel located within the City of Los Angeles?

Answer: The Bureau of Contract Administration does not make determinations regarding City limits. We recommend visiting <http://zimas.lacity.org/> for further clarification.

- 4) Are there health benefit requirements under the CHMWO?

Answer: No
