INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

1.0 INTRODUCTION

Effective July 1, 1991 all California employers must establish, implement and maintain an effective Injury and Illness Prevention Program (IIPP) as mandated by the California Code of Regulations, Title 8, Chapter 4, Section 3203, of the General Industry Safety Orders, and Section 1509 of the Construction Safety Orders. This document contains the City of Los Angeles (City), Bureau of Contract Administration (BCA) IIPP. As much as possible all websites or reference documents will be linked to from the BCA Safety website (Safety Page Tab).

The program must be in writing and shall, at a minimum:

- 1) Identify the person or persons with authority and responsibility for implementing the Program
- 2) Include a system for ensuring that employees comply with safe and healthy work practices
- 3) Include a system for communicating with employees in a form readily understandable by all affected employees on matters relating to occupational safety and health, including provisions designed to encourage employees to inform the employer of hazards at the worksite without fear of reprisal
- 4) Include procedures for identifying and evaluating work place hazards including scheduled periodic inspections to identify unsafe conditions and work practices
- 5) Include a procedure to investigate occupational injury or occupational illness
- 6) Include methods and/or procedures for correcting unsafe or unhealthy conditions, work practices and work procedures in a timely manner
- 7) Provide training and instruction

SAFETY MANUAL

2.0 DEPARTMENT POLICY STATEMENT

The Bureau of Contract Administration (BCA) takes its duty to comply with Cal-OSHA regulations regarding safety for the men and women that work in this department very seriously. The Bureau Management understands that the safety of each employee is essential and that we must exhibit serious leadership and exemplary behavior so that all employees embrace a culture of safety.

BCA Safety Committee has fully reviewed and updated the 2024 BCA IIPP to incorporate any new law, regulation or policy that is pertinent to the functions and duties of our organization. There is one new adopted California legislation that is material to the BCA IIPP.

1. SB-533 Workplace Violence Prevention Plan (“WVPP”).
 - Effective July 1, 2024
 - BCA Executive management recommends that this plan be developed by City of Los Angeles Personnel Department.
 - BCA will continue to follow the existing City of Los Angeles Workplace Violence Policy & Guidelines (<http://per.ci.la.ca.us/www/eeo/violence.htm>) until the new policy is promulgated and approved.
2. SB-616 Paid Sick Leave Increases
 - Effective January 1, 2024
 - This should not have any effect on BCA employees since current benefits afford all employees 98 hours of paid sick leave.
3. SB-848 Reproductive Loss Leave
 - Effective January 1, 2024
 - This should not have any effect on BCA employees since current benefits afford all employees 98 hours of paid sick leave.
4. AB-2188 Discrimination in employment: use of cannabis.
 - Updates the California Fair Employment and Housing Act (FEHA) to prohibit employers from discriminating, terminating, or otherwise penalizing an employee or applicant because of their use of cannabis. AB 2188 protects an employee's use of cannabis when off the job and away from work.
 - **Exempts employees in the construction and building industries** and those hired for positions that require federal background and clearance checks.

This 2024 revision is in compliance with all federal, state, and local requirements, with emphasis on the California Occupational Safety and Health Act of 1973 (Cal/OSHA). In order for the program to be successful, all Bureau employees are to be trained in, and have access to, all applicable Cal/OSHA regulations, City Policies, and directives which include, but are not limited to:

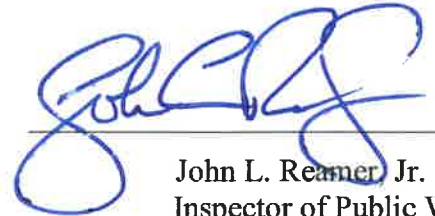

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

1. California Code of Regulations, Title 8 - <https://www.dir.ca.gov/Title8/sub7.html>
2. City of Los Angeles – Executive Directives - <https://www.lacity.org/your-government>
3. City of Los Angeles – ED 18 - https://www.lamayor.org/mayor_garcetti_s_executive_directives
4. City of Los Angeles – Personnel Dept. Civil Service Rules - <http://personnel.lacity.org/>
5. City of Los Angeles – Board of Public Works - <http://www.dpw.lacity.org/>
6. Bureau of Contract Administration Policies and Directives
7. MCIA MOU 5 Effective June 23, 2019 – June 30, 2022

It must be emphasized that no job or service performed by an employee is so important or urgent that it cannot be performed safely. In order to effectively implement the safety program, a Bureau Safety Committee has been established and given broad authority to carry out this program throughout the Bureau. Employees are encouraged to give suggestions which will further a safe and healthful working environment.

This Safety Manual has been developed under my direction and does satisfy the requirements promulgated by the sources above.

John L. Reamer, Jr.
Inspector of Public Works

SAFETY MANUAL

3.0 SCOPE AND PURPOSE

Cal-OSHA General Industry Safety Order 3203 requires each employer to establish and maintain an effective IIPP to protect employees. Cal-OSHA regulations direct that the employer's IIPP shall be specific to the activities and tasks that its workforce performs.

Additionally, under the direction of City of Los Angeles Mayor Directive, the mayor has specific instructions that all departments must comply with for city-wide uniformity; specifically ED-18ⁱ.

BCA's IIPP involves an ongoing process to keep the program relevant and current. This includes continual research of laws that affect day-to-day activities performed by BCA staff. The Department communicates its workplace safety procedures through the IIPP. Each division supervisor is responsible for communicating with employees on matters concerning safety and health, including identifying, evaluating and mitigating workplace hazards; investigating injury and illness; and conducting employee training. Successful implementation of the policies and procedures contained in the IIPP involves an ongoing commitment by managers, supervisors, and employees.

ⁱ Executive Directive No. 18 - Safe and Healthy Workplace 02/01/2017

SAFETY MANUAL

4.0 RESPONSIBILITIES

A. GENERAL MANAGER

General policies which govern activities and responsibilities under the IIPP are established under the final authority of the General Manager. Mayoral Executive Directive No 18 states that the Department/Bureau heads shall develop an IIPP that complies with Cal/OSHA and this Executive Directive, and is tailored to the specific needs of the Department/Office, with the IIPP reviewed annually and updated as appropriate. The General Manager will maintain a place of employment that is safe and healthful for the employees that complies with occupational safety and health standards, rules, regulations and orders.

Executive Directive ED-18 additionally directs that the General Manager will also follow these specific responsibilities.

- Designate a senior manager as the Chief Safety and Wellness Officer (CSWO¹)
- Designate a senior manager as the Chief Risk Management Officer (CRMO²)
- Incorporate supervisors' safety efforts and safety performance into performance evaluations
- Serve as or designate an individual to serve as the IIPP Implementation Plan Administrator
- Oversee and support the components outlined in this program
- Authorize the allocation of physical and financial resources necessary to maintain an effective IIPP
- Ensure the IIPP is reviewed and updated annually as appropriate and electronic copies are provided to the General Manager of the Personnel Department

B. BUREAU SAFETY COMMITTEE

The Bureau Safety Committee (BSC) will be the primary means of implementing the Bureau's IIPP. All supervisors and employees are encouraged to support the efforts of the BSC in providing and maintaining a safe and healthful working environment and correcting any unsafe conditions or practices. The committee will be organized by the Committee Chair (Chief Safety and Wellness Officer) and BCA Civil Engineer or Safety Coordinator.

A minimum of four additional staff will include at least one Principal Construction Inspector, one staff from Administrative Division, one staff from minimum of four additional staff will include at least one Principal Construction Inspector, one staff from Administrative Division, one staff from Office of Contract

SAFETY MANUAL

Compliance and one staff from Office of Wage Standards. This committee will meet on the third Thursday of each month. All staff will serve for a minimum one-year term. The specific duties of the BSC include:

- 1) Receive, review and report on accident reports involving City employees, contractor personnel or the public.
- 2) Review employee accidents; perform independent investigations and make recommendations to management for disciplinary actions
- 3) Report on Workers' Comp accidents
- 4) Review results of periodic and scheduled worksite investigations
- 5) Review the needs of safety equipment and requests for PPE. Submitted requests for purchasing PPE/safety equipment to management.
- 6) Review and revise Bureau Safety Manual.
- 7) Review employee safety concerns and training needs.
- 8) Make recommendations for safety training.
- 9) Communicate Health and Safety information to employees

C. BCA CIVIL ENGINEER OR SAFETY COORDINATOR

This position reports to the Director and is responsible for the development, updating and implementation of the IIPP. The Safety Engineer's duties are:

- 1) Monitors program effectiveness. Design the program so that additions and updates can be easily made. Keep program requirements current with the requirements of Cal/OSHA.
- 2) Coordinates Bureau IIPP collaboration with City of Los Angeles Personnel Department Health and Safety
- 3) Acts as the in-house expert on Cal-OSHA regulations.
- 4) Maintains records pertinent to the IIPP
- 5) Prepares bi-weekly Tailgate Safety Meeting Reviews and Quizzes; prepares bi-monthly and year end report on mandatory quiz completions.

SAFETY MANUAL

D. SUPERVISORS

City of Los Angeles and BCA policy states that the supervisor is the individual most responsible for the safety and training of their staff. As such, the supervisor is responsible to maintain full knowledge of the BCA IIPP. Supervisors are directed to comply with all City of Los Angeles and BCA duties. These duties are defined in Mayor Executive Directive No. 18 and BCA IIPP requirements. Supervisors must also attend and competently perform City Personnel Department training and policies.

- 1) Per Mayor Executive Directive No. 18 Individual supervisors shall
 - a: Ensures that employees receive training in the safe handling of materials, tools, and equipment
 - b: Notifies employees of unsafe behavior and unsafe conditions and take appropriate corrective action
 - c: Monitor employee performance to ensure that duties are discharged in a safe and responsible manner
 - d: Evaluate worksites on an ongoing basis for unsafe conditions and take steps to correct them
 - e: Remind employees of preventive measures to avoid accidents
 - f: Conduct complete investigations of workplace accidents
- 2) All supervisors shall comply with IIPP program requirements
 - a: Schedule/conduct bi-weekly (or quarterly) Tailgate Safety Meetings (TSM)
 - b: Track each employee's attendance to TSM per Chapter 19
 - c: Remind employees of preventive measures to avoid accidents
 - d: Conduct complete investigations of workplace accidents
 - e: Follow notification protocols for any serious injury or illness
 - f: Review the Contractor's IIPP for each worksite that staff are assigned

E. EMPLOYEES

All new City employees must attend training classes for employee orientation, City rules and policies and employment rights. Construction inspectors will also receive training from BCA Training Section during their 6-month probationary period that deals with safety and health. Each

SAFETY MANUAL

employee must follow all posted rules. Failure to comply with IIPP safety rules may be cause for employee discipline. Employees shall comply with the BCA IIPP and specific California Labor Code requirements:

- 1) BCA IIPP employee responsibilities
 - a: Employees shall read and comply with Chapter 16 Safety Rules and Code of Safe Practices;
 - b: Work safely and assist co-workers and others to work safely in the workplace;
 - c: Comply with City policies, procedures, and practices related to accident prevention and safety;
 - d: Comply with Federal, State, and local laws, rules and regulations governing employee health and safety;
 - e: Comply with manufacturers' safety guidelines and rules related to equipment and materials;
 - f: Participate in safety training and track their TSM attendance per Chapter 19.
 - g: Report safety hazards in a timely manner;
 - h: Obtain and submit to their supervisors, clear and complete information on work restrictions;
 - i: Follow notification protocols for any serious injury or illness;
 - j: Cooperate in incident investigations.

- 2) California Labor Code, Division 5, Part 1, Chapter 3: Section 6406. Prohibited Acts. No person shall do any of the following:
 - a: Remove, displace, damage, destroy or carry off any safety device, safeguard, notice, or warning, furnished for use in any employment or place of employment.
 - b: Interfere in any way with the use thereof (the above safety devices) by any other employee.
 - c: Interfere with the use of any method or process adopted for the protection of any employee, including himself, in such employment, or place of employment.
 - d: Fail or neglect to do every other thing reasonably necessary to protect the life, safety, and health of employees.

SAFETY MANUAL

F. CONTRACTOR

BCA provides contract administration and inspection services for construction work. Each construction site or fabrication facility is controlled by the Contractor or their supplier. Each Contractor/Supplier must have an IIPP. It is the responsibility of the Contractor for the safety of City employees entering these sites. As such, BCA employees are subject to both its IIPP and the Contractor/Supplier's IIPP.

When ever there is a difference in safety policy the City employee shall choose the safest. If there is any question the employee shall contact their supervisor or Safety Engineer for direction. BCA IIPP requires that all Contractors/Suppliers shall:

- 1) Maintain at the work site copies or suitable extracts of:
 - a: Construction Safety Orders
 - b: General Industry Safety Orders
 - c: Latest adopted edition of the "Work Area Traffic Control Handbook" (WATCH), or the LADOT Worksite Traffic Control Plan (S-488.0) or "Manual on Uniform Traffic Control Devices" (MUTCD) if applicable (Per SSPWC S-610 [Brownbook] 7-10.3).
 - d: Any other rules or regulations that are required to complete the work
- 2) Comply with provisions of these and all other applicable laws, ordinances, and regulations (Standard Specifications for Public Works Construction [SSPWC] Part 1 Section 7).
- 3) Establish, implement and maintain an effective Injury and Illness Prevention Program and give Safety Instructions for the employees. The Contractor shall provide all safety measures necessary to protect the public and workers within the Work area....The Contractor shall immediately report any accident or injury to the Engineer and the Inspector. (Per SSPWC Section S-610 7-10.4.1).
- 4) Designate in writing a Project Safety Coordinator who shall be at the jobsite at all times, and who shall be thoroughly familiar with and able to execute the requirements of the Contractor's IIPP, Code of Safe Practices (CSP) and general work area traffic safety and control as specified in 7-10.3. (Per SSPWC S-610 7-10.4.6).
- 5) Comply with all submittals to Engineer (SSPWC Part 1 Section 2.5.3.4)
- 6) Submit to the Inspector Gen M-141 Competent Person Trench & Excavation Certification form.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 7) Provide safety equipment, material, and assistance to Agency personnel to properly inspect all phases of the Work, including final inspection. (Per SSPWC S-610 7-10.4.5 Agency Worker Protection)

SAFETY MANUAL

5.0 COMPLIANCE

The BCA Injury and Illness Prevention Program meets the requirements as set forth by Title 8 General Industry Safety Orders (GISO) Section 3203 and Construction Safety Orders (CSO) Section 1509.

A. TITLE 8 – GENERAL INDUSTRY SAFETY ORDERS SECTION 3203

General Industry Safety Orders (GISO) in Subchapter 7 establishes minimum occupational safety & health standards that apply to all places of employment in California. Additional industry, occupation or equipment specific safety orders are located in 14 other subchapters. Safety Orders in these subchapters that address like conditions and hazards will take precedence over the safety orders in the GISO wherever they are inconsistent with the General Industry Safety Orders.

Section 3203 compliance sections are:

1) 3203(a)

This written manual complies with the requirement every employer shall establish, implement and maintain an effective IIPP.

2) 3203(a)(1)

Chapter 4.0 identifies the responsibilities assigned to each level of BCA for the implementation of the IIPP.

3) 3203(a)(2)

Chapter 3.0 identifies BCA policy, protocols and systems used to ensure that employees comply with safe and healthy work practices.

4) 3203(a)(3)

Chapter 6.0 outlines communication protocols for employees related to occupational safety and health.

5) 3203(a)(4)

SAFETY MANUAL

Chapter 7.0 requires BCA to comply with a full program of evaluating and mitigating workplace hazards.

6) 3203(a)(5)

Chapter 11.0 identifies procedures to investigate occupational injuries or occupational illnesses.

7) 3203(a)(6)

Chapter 8.0 include methods and/or procedures for correcting unsafe or unhealthy conditions, work practices and work procedures in a timely manner based on the severity of the hazard.

8) 3203(a)(7)

Chapter 9.0 sets forth the BCA health and safety training and instruction program.

9) 3203(b)(1)

Chapter 10.0 establishes procedures to maintain records of scheduled and periodic inspections required by subsection (a)(4) to identify unsafe conditions and work practices, including person(s) conducting the inspection, the unsafe conditions and work practices that have been identified and action taken to correct the identified unsafe conditions and work practices.

10) 3203(b)(2)

Chapter 10.0 establishes documentation procedures for safety and health training required by subsection (a)(7) for each employee, including employee name or other identifier, training dates, type(s) of training, and training providers.

11) 3203(c)

Chapter 4.0 Section B establishes the BCA Safety Committee to comply with the communication requirements of subsection (a)(3).

SAFETY MANUAL

B. TITLE 8 – CONSTRUCTION SAFETY ORDERS SECTION 1509

Application of these Orders establish minimum safety standards whenever employment exists in connection with the construction, alteration, painting, repairing, construction maintenance, renovation, removal, or wrecking of any fixed structure or its parts. These Orders also apply to all excavations not covered by other safety orders for a specific industry or operation. At construction projects, these Orders take precedence over any other general orders that are inconsistent with them, except for Tunnel Safety Orders or the Pressurized Worksite Standards in Article 154 of the General Industry Safety Orders.

1) 1509(a)

The BCA IIPP per Section 3203 of the GISO applies to both construction and office personnel.

2) 1509(b)

Chapter 16 is the adopted Safety Rules and Code of Safe Practices for Field and Office Employees. The relevant parts of Plate A-3 have been included in the Code.

3) 1509(c)

Chapter 6 requires all worksites will have Cal-OSHA required postings (including Safety Rules and Code of Safe Practices). The entire IIPP is posted on the BCA website.

4) 1509(d)

Chapter 6 directs that the Bureau Safety Committee meets monthly on the 3rd Thursday to discuss safety problems and accidents.

5) 1509(e)

Chapter 6 directs that all BCA District supervisors hold tailgate safety meetings every ten working days. Management shall monitor the progress of these meetings to ensure that they are being held and that appropriate safety topics are being discussed.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

6.0 COMMUNICATION

Title 8 Regulation Section 3203 (a)(3) states that all employers must have a system for communicating with employees in a form readily understandable by all affected employees on matters relating to occupational safety and health, including provisions designed to encourage employees to inform the employer of hazards at the worksite without fear of reprisal. Substantial compliance with this provision includes meetings, training programs, posting, written communications, a system of anonymous notification by employees about hazards, labor/management safety and health committees, or any other means that ensures communication with employees.

A. INJURY AND ILLNESS PREVENTION PROGRAM MANUAL

This written manual complies with the requirement every employer shall establish, implement and maintain an effective IIPP. The manual, its appendices and reference documents are all posted on the BCA Website.

B. BUREAU SAFETY COMMITTEE

The Bureau Safety Committee shall ensure that BCA employees receive all safety related information. This will include changes to the IIPP, changes to state laws and regulations, training requirements, accident reports, Cal-OSHA citations and any other matter that may affect the health and safety of BCA staff.

C. BUREAU WEBSITE – SAFETY

The Bureau website will be the central repository of safety information. This will be updated on a monthly or as needed basis.

D. MONTHLY POSTERS

Each month Safety Posters will be posted on the Bureau Website - Safety. These posters will be based on the 26 bi-weekly Tailgate Safety Topics. The purpose of all posters will be to highlight the essential theme of each topic. The posters should be printed out by the supervisor and posted on the bulletin boards of each office.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

E. TAILGATE SAFETY MEETINGS

Tailgate Safety meetings are a Cal-OSHA mandated requirement. This meeting will be conducted on a bi-weekly basis. The topics for each meeting are posted on the Bureau webpage and in the Appendix. Each district supervisor or their designate shall prepare for the assigned safety topic by reviewing the IIPP and Tailgate Safety Topic Information Sheets.

F. PWB BUILDING EMERGENCY OPERATIONS

The majority of BCA non-inspection and executive staff are housed at 1149 South Broadway in the Public Works Building (PWB). PWB Building management is responsible to communicate building safety requirements, conduct evacuation drills and coordinate all other building related emergency/safety information. BCA management has assigned the Emergency Preparedness Coordinator (Seffy Wiles, Ch Const Insp) to represent its interests by attending regularly scheduled PWB-Emergency Managers meetings.

SAFETY MANUAL

7.0 WORKSITE INSPECTIONS

A. GENERAL INFORMATION

Bureau of Contract Administration IIPP directs management to maintain safe and healthful working conditions and to follow operating practices which will safeguard all employees and result in safe working conditions and efficient operation. This requires BCA to have a full program of evaluating and mitigating workplace hazards. This is accomplished through site inspections.

Periodic inspections provide a method of identifying existing or potential hazards in the work place, and eliminating or controlling them. Hazard control is the heart of an effective injury and illness prevention program.

This will be accomplished by specific inspections being performed as a regular part of the assigned duties. All staff will be encouraged to report hazardous conditions to management for evaluation and mitigation without a fear of reprisal.

B. SITE INSPECTION – ANNUAL

- 1) The Safety Engineer will perform a full facility inspection at each of BCA's main offices. All elements of the building's life safety/health will be inspected and be recorded using the BCA Facility/Hazard Inspection Checklist. (Attachment CH07.A)
- 2) The facilities that are included in the annual inspection are:
 - a: Public Works Bldg – 1149 South Broadway, Ste 300, Los Angeles
 - b: Marvin Braude Constituent Center – 6262 Van Nuys Blvd. Ste 400, Van Nuys
 - c: West Los Angeles - 1828 Sawtelle Blvd 3rd Floor, Los Angeles
 - d: San Pedro City - 638 Beacon St., 4th Floor, San Pedro
 - e: West Valley Office 19040 Vanowen St., Reseda
- 3) The designated supervisor shall be given a copy of the report.

C. SITE INSPECTION – SCHEDULED

- 1) Supervisors are responsible for inspecting their respective Bureau facilities on a regular schedule or when conditions warrant more frequent inspections.

SAFETY MANUAL

- 2) If any hazard or violation is discovered and cannot be immediately mitigated by the supervisor (or designated staff) then it should be isolated and the Safety Engineer shall be contacted.
- 3) All observed hazards shall be recorded and reported using the BCA Facility Site Checklist:
 - a: A description of any safety hazards noted.
 - b: Descriptions of any unsafe work practices observed.
 - c: Causes of the deficiencies and hazards noted.
 - d: Recommendations for corrective action.
 - e: A proposed schedule for completing the corrective actions.
 - f: The original copy shall be forwarded to the Safety Engineer

D. SITE INSPECTION – UNSCHEDULED

- 1) The Safety Committee shall perform random or spot inspections as a normal part of their duties. These inspections are intended to maintain integrity in the oversight of hazard awareness and assessment at all work sites.
- 2) Construction sites and trailers are the primary focus of unscheduled site inspections.
- 3) The Safety Committee member may or may not inform the site supervisor that an unscheduled inspection is being performed. An inspection report shall be completed and a copy will be forwarded to the site supervisor and their Chief by email.
- 4) These random inspections shall be reported at the monthly Bureau Safety Meeting.

E. FACILITY/HAZARD INSPECTION CHECKLIST

- 1) Use Attachment CH07.C

F. INSPECTIONS BY OUTSIDE AGENCIES

All BCA staff shall be trained in the City Personnel Department policy regarding “WHEN A CAL/OSHA REPRESENTATIVE ARRIVES” and BCA policy. There are three situations discussed in policies:

- 1) CAL-OSHA representative arrives to inspect at a City facility or an accident/construction site **involving a BCA employee**
 - a: Immediately contact your supervisor and at least one of the following managers;
 - i - Division Chief

SAFETY MANUAL

- ii - Brett McReynolds, CWO – 213-798-5100
- iii - Bruno Huerta, OSHD - City Safety Engineer – 213- 473-7084

Follow Personnel Safety Bulletin No. 2-1 (See Attachment CH07.B)

http://per.lacity.org/safety/Safety_Bulletins.htm

- iv - Politely ask Cal-OSHA rep to wait for one of the managers to arrive
- v - If the rep insists on starting the inspection then the BCA inspector shall follow the Safety Bulletin guidelines and BCA Policy
- vi - **BCA Policy**
 - If the rep insists on investigating the location before any manager arrives the inspector shall:
 - Request another inspector to come along for the inspection
 - BCA inspectors shall only respond to questions to the best of their knowledge and should **never** volunteer information.
 - The inspector shall take notes of what the rep is asking questions about, project locations and any other conversations with other individuals on the site.
 - Once the investigation is complete the inspector shall make a report to the BCA Safety Committee within 12 hours.

- 2) CAL-OSHA representative arrives to inspect a Contractor's construction site or personnel
 - a: Contact your supervisor and the BCA Safety Engineer.
 - b: If work is on-going perform your inspection duties,
 - i - but do not involve yourself in the inspection, and
 - ii - be aware of your compliance with job-site safety and make sure that all PPE is properly donned.
 - iii - If Cal-OSHA wants to include the inspector or the inspector's activities in their investigation – Follow BCA Policy.
 - c: If there is no on-going inspection work the inspector may leave the worksite and report at a location based on their supervisor's direction.

All other inspection requests by either City Departments or Outside Agencies are to be handled using the same protocols as set forth above.

| | | | | | |

1. For all Hazards/Unsafe Work practices include photographs
2. Submit the report to the Safety Engineer
3. If this inspection identifies an imminent danger then all employees/workers should be evacuated to a safe location

SAFETY MANUAL

| DOCUMENTATION / GENERAL SAFETY | | | | | | |
| OSHA required posters prominently displayed on bulletin board. | | | | | | |
| OSHA Log maintained, Summary Posted Feb.-Apr., Filed for five years. | | | | | | |
| Housekeeping and sanitation is adequate. | | | | | | |
| All areas are provided with adequate lighting and ventilation | | | | | | |
| Outside areas and parking lots are properly maintained. | | | | | | |
| Are the restrooms appropriate for the number of employees; are regularly serviced | | | | | | |
| FIRST AID / MSDS / HAZARDOUS WASTE | | | | | | |
| Adequate number of first aid kits available for the number of employees in the area | | | | | | |
| First Aid supplies inventoried and replenished as needed. | | | | | | |
| Separate and appropriate storage facilities for hazardous materials/items | | | | | | |
| Current Material Safety Data Sheets are available for hazardous materials. | | | | | | |
| FIRE PROTECTION / ELECTRICAL EQUIPMENT | | | | | | |
| Properly serviced fire extinguishers are readily available. | | | | | | |
| Does the building have floor wardens, emergency maps and annual fire drills? | | | | | | |
| Electrical equipment is maintained in good working condition. | | | | | | |
| No electrical cords are running over/under walls or through doorways, etc. | | | | | | |
| WORK & STORAGE AREAS | | | | | | |
| Floors, corridors, walkways & aisles are relatively smooth and free of tripping hazards. | | | | | | |
| Are stairways designed with slip-resistant surfaces and are adequately illuminated? | | | | | | |
| Exits are unobstructed and properly marked with illuminated exit signs & lights | | | | | | |
| Exit door hardware operates properly | | | | | | |
| Do stairs have at least a 6-½ foot overhead clearance? | | | | | | |
| Office furniture, chairs, desks, and tables are in safe usable condition | | | | | | |
| Are signs posted showing the elevated surface load capacity, access and egress? | | | | | | |
| Are materials on elevated surfaces piled, stacked or racked in a manner to prevent tipping, falling, collapsing, rolling or spreading? | | | | | | |
| All cabinets are securely attached for earthquake loads | | | | | | |
| Cabinets and shelves are properly loaded, heaviest items on bottom. | | | | | | |

SAFETY MANUAL

WHEN A CAL/OSHA REPRESENTATIVE ARRIVES

A number of Cal/OSHA inspections can occur yearly at various City facilities. Cal/OSHA compliance representatives are responsible for ensuring that the provisions of the California Occupational Safety and Health Act are followed. Representatives may visit City work sites to conduct routine inspections, review safety related records or documents, respond to a complaint of an unsafe condition, or investigate an accident. It's imperative that you contact your Department Safety Professional or Safety Coordinator when a Cal/OSHA representative arrives. The Personnel Department's Occupational Safety and Health Division can also assist with necessary information that the Cal/OSHA representative will ask concerning the City's safety programs. The Occupational Safety and Health Division can help protect the City from unnecessary citations and monetary penalties. **It is important that you take the following steps whenever a Cal/OSHA representative arrives at your worksite:**

- 1) Immediately contact your Department Safety Engineer or Safety Coordinator. If you are unable to contact your Department Safety representative you can contact the Personnel Department's Occupational Safety and Health Division, at 213-473-6981 or 213-473-7097.
- 2) Politely request the Cal/OSHA representative to wait for a City Safety professional to arrive before proceeding with an opening conference or inspection.
- 3) If the Cal/OSHA representative insists on starting an inspection or investigation before a City Safety professional arrives, accompany the representative and take written notes during the process. You should answer only those questions you are asked and should never volunteer information. If you do not have the information available during the time of the visit, you are allowed to submit it to the Cal/OSHA Office at a later date. Never admit guilt or argue with the Cal/OSHA representative.
- 4) If your Department receives any written correspondence from Cal/OSHA before or after a visit, contact your Department Safety representative. If you are unable to contact your Department Safety representative you can contact the Personnel Department's Occupational Safety and Health Division.

Additional information on what to expect from a Cal/OSHA inspection, investigation, or citation is available at www.dir.ca.gov

If you have any questions or concerns contact City Safety Engineer, Allan Tan at 213-473-6981.

All Safety Bulletins can be downloaded from the Personnel Department, Safety Division website at http://per.lacity.org/safety/Safety_Bulletins.htm

SAFETY MANUAL

Policy Memorandum BCA Policy

City of Los Angeles Personnel Department – Safety Bulletin No. 2-1

WHEN A CAL/OSHA REPRESENTATIVE ARRIVES

1. If a Cal-OSHA representative arrives at the worksite regarding an investigation of the Contractor's staff or sub-contractor the BCA inspector shall not become involved with the investigation.
2. If a Cal-OSHA representative arrives at a BCA facility or at the worksite to investigate a BCA staff injury/incident the following shall apply:
 - a. The staff on site shall immediately contact their supervisor stating that a Cal-OSHA inspector has arrived on site.
 - b. The staff on site shall then contact the following list for a BCA representative to come to the site to facilitate the Cal-OSHA representative's access to the site.
 - i. Employee's Supervisor or Chief
 - ii. Chief Safety and Wellness Officer (CWO)
 - a. Angela Martinez, 213-798-5543
 - iii. Chief Risk Management Officer (CRMO)
 - a. Angelica Samayoa, 213-798-5087
 - iv. City Safety Administrator, OSHD - City Safety Engineer – 213- 473-7084
 - c. If no one on this list can attend (within one hour) the staff person in charge shall escort the Cal-OSHA representative on the worksite but shall be governed by Safety Bulletin and the following protocols
 - i. Escorting staff shall verify that the Cal-OSHA representative has all the necessary safety PPE to enter the site (if required)
 - ii. Contact another BCA Inspector to accompany the inspection (if possible)
 - iii. The escorting staff shall be advised to answer only questions that they feel comfortable with.
 - iv. If the escorting staff is asked a question that is outside the scope of the investigation the staff should respond that the Cal-OSHA inspector needs to contact the BCA Safety Engineer.
 - v. The escorting staff should answer with factual statements; not opinion.
 - d. Once the site investigation is complete the escorting staff should memorialize the event as soon as possible and send a copy to their supervisor.

SAFETY MANUAL

SAFETY CONCERN OR SUGGESTION FORM

Attachment CH07.C

If the safety concern creates a hazard to employees and needs immediate attention, please notify your supervisor or contact the Department Safety Coordinator or City Administrator at 9213) 473-7097. All personal information contained on this form is confidential.

Name: _____ Phone Number: _____
(Optional) (Optional)

Site or Facility Address: _____ Date: _____

Include a brief description of the safety concern or safety suggestion; include the location in which it can be investigated.

Has this safety concern been brought to the attention of your supervisor?

Yes _____ No _____ If yes, date notified: _____

Was Administrative Services Division notified regarding safety-related repairs?

Yes _____ No _____ If yes, date notified: _____

Do you want the Safety Staff to contact you?

Yes _____ No _____ If yes, please include your name and phone number above:

Please indicate your preference: _____ *Do not reveal my name to my supervisor*
_____ *My name may be revealed to my supervisor*

SAFETY MANUAL

8.0 HAZARD ASSESSMENT - CORRECTION

A. GENERAL INFORMATION

The primary purpose of the Hazard Communication Program is to assure that employees are provided with information regarding hazardous substances in the workplace. Cal/OSHA has promulgated standards (Section 5194, General Industry Safety Orders) requiring a written plan to detail how this information is communicated to employees.

Hazards that are discovered as a result of periodic inspections or during normal operations shall be corrected promptly. Reports of unsafe conditions by employees or the public shall be investigated promptly by supervisors. BCA recognizes that hazards range from imminent dangers to relatively low risks. A supervisor's corrective actions must include evaluation of the potential hazard and suitable timetables for correction.

B. IMMINENT HAZARDS – LIFE OR LIMB

- 1) For Workplace Violence refer to Chapter 15
- 2) Immediate action shall be taken to mitigate or isolate the hazard
- 3) If the hazard cannot be immediately abated then all personnel shall be removed from the affected area; access should be limited.
- 4) BCA Inspectors/staff shall contact their supervisor or BCA Main Office/Dispatch
- 5) Appropriate contacts should be made depending on the location/ownership
 - a: City owned facilities
 - i - Safety and Health Division - (213) 473-7097
 - ii - Building Maintenance
 - iii - Los Angeles Fire Department (9-1-1)
 - b: Construction Sites
 - i - Contractor representative
 - ii - Cal-OSHA
 - iii - Los Angeles Fire Department (9-1-1)
 - iv - Report the hazard in the Inspector's Daily Report
 - c: Public Right of Way
 - i - 8 am – 5 pm Los Angeles Call Center 3 – 1 – 1 or;
 - ii - ASK LAPD 877-275-5273 (when not between 8 – 5)

SAFETY MANUAL

- iii - BCA Main Office/Dispatch
- iv - 9 – 1 – 1 Emergency
- 6) Complete a BCA Facility/Hazard Inspection Checklist. (Attachment CH07.A) – Original goes to the Safety Engineer

C. GENERAL HAZARDS

- 1) Physical conditions of structures, equipment or environment may pose general hazards due to lack of maintenance or poor housekeeping.
- 2) BCA policy requires that all employees should take responsibility to report safety hazards immediately and prevent others from that danger
- 3) Responsibility generally belongs to the facility owner or occupant
 - a: City owned facilities
 - i - BCA Offices are maintained by General Services or a building management company.
 - ii - Contact the BCA designated staff for contact information
 - iii - Complete a BCA Facility/Hazard Inspection Checklist – Original goes to the Safety Engineer
 - b: Construction Sites
 - i - Contact the Contractor's representative
 - ii - Report the hazard in the Inspector's Daily Report
 - c: Public Right of Way
 - i - 8 am – 5 pm Los Angeles Call Center 3 – 1 – 1 or;
 - ii - BCA Main Office/Dispatch.

D. EMPLOYEE UNSAFE WORK PRACTICES

- 1) Supervisors are responsible for informing and protecting employees and the public regarding any safety hazards that have been discovered.
- 2) Supervisors shall immediately stop the City employee from unsafe work practices.
- 3) Supervisors are required to instruct employees on proper procedures before work resumes.
- 4) If additional training is warranted the supervisor is responsible to notify Training Division with that needs assessment.

SAFETY MANUAL

E. EXPOSURE TO HAZARDOUS MATERIALS

- 1) All City owned/leased buildings are required to be free of hazardous materials.
- 2) If an employee discovers dangerous levels of asbestos, lead, mold, crystalline silica or chemical in the workplace they should immediately contact
 - a: Supervisor
 - b: Department's Occupational Safety and Health Division at (213) 473-7097.

F. HAZARD COMMUNICATION PROGRAM

The primary purpose of the Hazard Communication Program is to assure that employees are provided with information regarding hazardous substances in the workplace. Cal/OSHA has promulgated standards (GISO Section 5194) requiring a written plan to detail how this information is communicated to employees.

- 1) Communication of the BCA plan will be conducted during the scheduled Tailgate Safety Meeting training.
- 2) BCA Hazard Communication Program contains three elements
 - a: Labels - are designed to provide information to employees concerning the hazards of various chemicals.
 - b: MSDS – Material Safety Data Sheet contain information for all products that may be hazardous. It provides workers and emergency personnel with procedures for handling or working with that substance in a safe manner.
 - c: Training – Provides guidelines on the type of training that is required to handle a hazardous substance.
- 3) It is the supervisor's responsibility to know what hazardous chemicals are at their worksite
- 4) It is the supervisor's responsibility to provide employees with information and training concerning the hazardous substances in their work areas.
- 5) The training must be done at the time of initial assignment to the work area and whenever a new hazard is introduced into the work area.
- 6) Supervisors shall document each employee' training and receipt of hazardous chemical SDS documents with attached form: *2024 CH 08 - BCA SDS HazComm Training Receipt.*

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 7) General training will be done using the Tailgate Meeting Topic Information – HazCom
- 8) For additional information please consult Cal-OSHA Guide to the California Hazard Communication Regulation http://www.dir.ca.gov/dosh/dosh_publications/hazcom.pdf

INJURY & ILLNESS PREVENTION PROGRAM
§5194. Hazard Communication. (h) Employee Information and Training.

HazComm Reporting Form

Date: _____
Site Location: _____
SDS Hazardous Chemical: _____
Owner: City Dept. _____
Owner: Contractor: _____
Project Name: _____ W.O.# _____

Hazardous Chemical SDS Info (Employee shall check each section to indicate training)

Supervisor will meet with the BCA employee that may be exposed to the above Hazardous Chemical and verify that the employee has personally received the SDS information

| Section | Title | Description | ✓ |
|---------|------------------------------|--|---|
| 1 | Identification | Includes product identifier; manufacturer or distributor name, address, phone number; emergency phone number; recommended use; restrictions on use. | |
| 2 | Hazard Identification | Includes all hazards regarding the chemical; required label elements. | |
| 3 | Composition | Includes information on chemical ingredients; trade secret claims. | |
| 4 | First Aid Measures | Includes important symptoms/effects, acute, delayed; required treatment. | |
| 5 | Fire Fighting | Lists suitable extinguishing techniques, equipment; chemical hazards from fire. | |
| 6 | Accidental release | Lists emergency procedures; protective equipment; proper methods of containment and cleanup. | |
| 7 | Handling/Storage | Lists precautions for safe handling and storage, including incompatibilities. | |
| 8 | Exposure Control | Lists OSHA's Permissible Exposure Limits (PELs); ACGIH Threshold Limit Values (TLVs); and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the SDS where available as well as appropriate engineering controls; personal protective equipment (PPE). | |
| 9 | Physical/Chemical Properties | Lists the chemical's characteristics. | |
| 10 | Stability/Reactivity | Lists chemical stability and possibility of hazardous reactions. | |
| 11 | Toxicological Info | Includes routes of exposure; related symptoms, acute and chronic effects; numerical measures of toxicity. | |
| | | | |
| | | | |

REQUIRED SIGNATURES (Acknowledgement for Receipt of SDA Info and Training)

Project Inspector (Printed)

Supervisor (Printed)

Project Inspector (Signature)

Date

Supervisor (Signature)

Date

Training may be performed by either the employee's supervisor or the Contractor rep.

**A copy of this form must be sent to the BCA Safety Committee within 5 working days.
Supervisor shall attach a copy of the SDS**

SAFETY MANUAL

9.0 HAZARD ANALYSIS FOR PERSONAL PROTECTION EQUIPMENT SELECTION

A. GENERAL INFORMATION

Bureau of Contract Administration's core business is the inspection of Public Works construction; both public and private. Each inspector, to safely accomplish their daily assignments, must be protected from workplace hazards. This involves the use of Personal Protective Equipment (PPE). BCA IIPP complies with General Industry Safety Order Section §3380 Personal Protective Devices and Construction Safety Order Section §1514 Personal Protective Devices.

Standard issue PPE is available from Administrative Division, Purchasing/Supplies at 213-847-2581. This PPE is identified in the new inspector orientation training.

B. TYPICAL WORK SITES – HAZARD ANALYSIS SHEETS

- 1) BCA has determined that the majority of the field assignments are in the following categories
 - a: Work in street Right-of-Way
 - b: Work in easements, hillsides, natural settings
 - c: Trench work including storm drain/sewer construction
 - d: Tunnel construction/Confined Spaces
 - e: Building construction
 - f: Material Control Plant Inspection
- 2) Each category/work task has been analyzed and PPE has been recommended. Attachment CH09.A

C. SUPERVISOR RESPONSIBILITY

- 1) Supervisors are given the direct responsibility to ensure that each employee has the appropriate PPE to perform their assigned duties.
- 2) The supervisor shall perform a Hazard Analysis of the assigned duties (if different from below) to determine potential areas of risk and then recommend the proper PPE.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 3) Whenever possible the supervisor shall work with the employee and contractor to eliminate the need of specialized PPE by either modifying the inspection method, work process or by use of guardrails, ladder cages, CCTV or other means.
- 4) If specialized or non-standard issue PPE is required the supervisor shall work with the client for the equipment and any required training.
- 5) The supervisor shall confirm that the employee is properly trained on the use of assigned PPE.
- 6) If the supervisor determines that the employee is disregarding the proper use of PPE the supervisor shall determine whether the employee requires additional training or discipline.

D. EMPLOYEE RESPONSIBILITY

- 1) Each employee required to use PPE must know when PPE is necessary, what PPE is necessary, how to properly don, doff, adjust, and wear PPE, the limitations of the PPE, and the proper care, maintenance, useful life and disposal of the PPE.
- 2) The employee must communicate with their supervisor any concerns regarding their work assignment and PPE usage.
- 3) If the employee does not have the correct PPE to safely perform their duties the employee needs to contact their supervisor.

E. HAZARDOUS ANALYSIS

- 1) Complies with Title 8 GISO Section §3380 (f) Hazard assessment and equipment selection.
- 2) The supervisor shall first reference the Hazard Analysis worksheets for Typical Field Assignments (Attachment CH09.A). If the work that they will be assigned does not meet these worksheets the supervisor shall:
 - a: Perform a Hazard Analysis
 - b: Determine the PPE required
 - c: Review the analysis with their Chief
 - d: Provide inspection staff with new PPE
 - e: Provide training for new PPE
- 3) Supervisor shall communicate with the BCA Safety Engineer requirements of the Hazard Analysis.

| WORK TASK | IDENTIFY HAZARDS INVOLVED IN TASK | | RECOMMENDED SELECTION OF PPE | |
|------------------------------------|---|---|---|--|
| <i>Indicate specific work task</i> | <input type="checkbox"/> Head | <input type="checkbox"/> Inhalation | <input type="checkbox"/> Hard Hat | <input type="checkbox"/> Boot (hard toe) |

| | | | | |

Guideline to Selection of Personal Protective Equipment

This document serves as a guideline for the use of Personal Protective Equipment (PPE) for particular operations. Specific tasks are indicated in the first column, hazards associated with those tasks should be checked off in the second column, and recommended (this means that it PPE that may be required but not mandatory) PPE is indicated in the third column. Contact BCA Safety Engineer for additional assistance with the selection of PPE and with any additional questions.

NOTE:

- All personal protective equipment must be approved (ANSI, NIOSH, etc.) for the work to be performed, properly fit each user, not be defective or damaged, be appropriate and properly maintained even if an employee provides his/her own protective equipment, and be used by trained employees.
- Each employee required to use PPE must know when PPE is necessary, what PPE is necessary, how to properly don, doff, adjust, and wear PPE, the limitations of the PPE, and the proper care, maintenance, useful life and disposal of the PPE.
- BCA inspectors are responsible to have the necessary clothing and footwear to protect them from injury. This includes
 - Clothing – Body protection must meet Subchapter 7.2 Article 10. §3383
 - Footwear – must meet Subchapter 7.2 Article 10. §3385
- Standard issue PPE for BCA Construction Inspectors are:
 - Hard hat – Protective helmets shall comply with American National Standards Institute (ANSI) Z89.1-1997
 - Vest – High Visibility Work Wear ANSI/ISEA 107 Class 3 Compliant
 - Safety goggles – per Eye and Face Protection, Z87.1-1989
 - Sun screen
 - Ear plugs/muffs – Hearing protectors must attenuate employee exposure at least to an 8-hour time-weighted average of 90 decibels as required by Section 5096(b).
 - First aid kits – 5 person
- In stock PPE for BCA Construction Inspectors are: (Contact Stores/Supply for availability 213-847-2581)

| | |
|---|---|
| <ol style="list-style-type: none"> Safety Harness – Miller Safety Lanyard – Miller Gas detectors – 4 gas (Contact Safety Engineer) Leather gloves | <ol style="list-style-type: none"> Rubber boots – steel toed Insect & Poison plant spray Flashlights |
|---|---|
- PPE not typically supplied by BCA or for projects that require special PPE will be requested to be supplied by the Owner and will be discussed during the pre-construction meeting.
- Contact BCA Safety Engineer for assistance at 213-798-5153.

SAFETY MANUAL

10.0 SAFETY RELATED TRAINING

A. GENERAL INFORMATION

Effective dissemination of safety information is essential for the success of the BCA IIPP.

Training includes general safe work practices as well as specific instruction on control of hazards unique to each employee's job assignment. Supervisors are responsible for the safety training related to their subordinate employees. Chapter 18 outlines the Safety Topics that are specific to the work that BCA performs and the training requirements.

B. TYPES OF TRAINING

BCA uses many types of training methods to communicate safety-related information to employees. Training may vary widely with respect to instructional method, setting, and subject matter. Types of training applicable to all employees include:

- 1) Classroom instruction involves the presentation of general or specific safety information. The Training Section is tasked with performing a needs assessment based on work assignments and then scheduling classes. These classes may be taught by bureau employees or outside vendors.
- 2) Tailgate Safety meeting have a 26-week schedule in which refresher information is presented. This information is referenced in Chapter 19 - TAILGATE SAFETY MEETING (TMS) TOPICS
- 3) On-the-job training is for all employees to receive instruction from the supervisor. On-the-job training can also include instruction on how to operate and maintain new equipment by manufacturer representatives.
- 4) Written instructions or training materials include memos, safety bulletins, and policy memorandum.

C. GENERAL – NEW HIRE TRAINING

General safety training is classroom instruction that refers to instruction which is applicable to all bureau employees and not related to specialized trades or procedures. BCA Training policy requires that all new employees attend a new hire orientation provided by the Training Section. New hire orientation shall include the following safety and health subjects:

SAFETY MANUAL

- 1) Basic safety training and introduction to the IIPP, including an overall review of employees' rights and employer's responsibilities under the California Code of Regulations, Title 8.
- 2) Instruction on reporting injuries and unsafe conditions, and employees' rights under Workers' Compensation law.
- 3) All new inspectors must attend mandatory probationary classes (See Bureau of Contract Administration Training Manual for a full list and syllabus for each class) that deal with construction and personal safety.
- 4) Construction Inspector MOU requires a "10 hour OSHA training" based on OSHA Outreach Training Program (<https://www.osha.gov/dte/outreach/index.html>).
 - a: BCA Training Section compliance for 10 hour class is accomplished by having all new inspection staff (hired or transferred) receive 16 hour new employee orientation that includes Worksite Safety module
 - i - GEN100 ORIENTATION [16 hour]
 - ii - CRE103 SURVEYING & WORKSITE SAFETY [8 hour]
 - b: The 10 hour class (or series of training) is intended for entry level workers and shall also include;
 - i - Training in job hazard recognition and avoidance
 - ii - At least 4 hours on Focus Four hazards:
 - Fall Hazards,
 - Because most construction fatalities are caused by fall hazards this will be a minimum of 1-1/2 hours
 - Caught-In or -Between, Struck-By and Electrocution
 - All others to be a minimum of 1/2 hour
 - iii - Provides training on the recognition, avoidance, abatement, and prevention of workplace hazards

D. SAFETY TRAINING –FOR ALL EMPLOYEES

- 1) All staff will attend regularly scheduled Tailgate Safety Meetings per Chapter 19.
- 2) All employees shall receive annual training to render First Aid per §3400. Medical Services and First Aid.

SAFETY MANUAL

- 3) All staff will receive basic annual training in CPR and AED.
- 4) All inspection staff are required to attend the following mandatory safety training as a new hire and then every two years.
 - a: HAS116 Confined Space Training
 - b: CIE145- Excavation Safety Training

E. SPECIALIZED SAFETY TRAINING

- 1) Whenever employees' assignments involve duties requiring specialized training or PPE they will immediately meet with their supervisor to discuss the requirements.
- 2) Contractor or BCA provided specialized training or PPE shall be provided at no cost to the employee.
- 3) Records of completion for specialized Safety Training (provided by BCA Staff or Outside Vendors) shall be forwarded to BCA Safety Committee and Admin Section for inclusion in the employees files. Examples of this training may be:
 - a: Project safety training per the Contractor IIPP
 - b: Respirator fit tests performed by City Medical Services
 - c: Safety harness assignment by BCA Safety Coordinator
- 4) Use CH 10 E Specialty Training Record forms (attached below)

F. SUPERVISOR RESPONSIBILITY

It is the responsibility of each supervisor to ensure that employees receive general and job-specific safety training for each employee under his/her direct control. Supervisors are required to review employees' compliance with instruction given regarding safety rules, regulations, and policies established by the IIPP. The supervisor must ensure that employees comprehend the training they are provided, ensuring that language barriers and/or literacy difficulties are accommodated.

Instruction by supervisors shall include the following subjects:

- 1) Safe work procedures, personal protective equipment, evacuation and emergency response, hazard communication and identification, and reporting of workplace safety hazards.
- 2) Protection of employees from hazards specific to their individual job duties.

SAFETY MANUAL

- 3) New substances, processes, procedures, or equipment introduced into the workplace that may create new hazards, when new or previously unrecognized hazards are brought to a supervisor's attention.

G. TRAINING SCHEDULE

Department policy requires that employees are provided safety-related instruction upon reporting to work the first day and prior to being assigned a new job task or process for which training has not been previously provided. Supervisors are responsible for providing training whenever a new substance, process, procedure or piece of equipment is introduced into the workplace. Supervisors are required to notify and inform employees when they receive information from the Bureau Safety Committee or Department's Occupational Safety and Health Division regarding changes in safety and health rules, regulations, or policies. In addition, the BCA shall follow all requirements regarding frequency of training established by the California Code of Regulations, Title 8

H. DOCUMENTATION AND RETENTION OF SAFETY TRAINING RECORDS

All safety related training records are archived on the primary BCA server located in PWB. Records are maintained per CCR Title 8. All safety training records include the subject title, name of employee, the date of training and the person who administered the training. Record requests are made to the Training Section supervisor.

INJURY & ILLNESS PREVENTION PROGRAM

Employee

Date

Bureau of Contract Administration Injury and Illness Prevention program clearly outlines training requirements to satisfy Cal-OSHA Title 8 GISO section §3203. Injury and Illness Prevention Program. This compliance is Chapter 10 in the BCA IIPP and covers most types of general/specific safety training that BCA employees are guaranteed.

There are situations that an employee requires specialized training that is not typically provided. This form documents that special training. Supervisors will complete this form anytime that an employee receives special training from the supervisor, safety official, outside vendor or PPE provider.

SAFETY MANUAL

USER TRAINING:

- Users of the equipment must check the condition of the equipment before and after each use. Do not use the equipment if there is any doubt about its ability to perform as required.
- The equipment must not be altered in any way.
- Only 1 person at a time is to wear or be connected to the equipment.
- Any equipment involved in arresting a fall must be withdrawn from service and destroyed.
- Do not allow the equipment or any rope, lanyard or webbing to come in contact with high temperature surfaces, welding, heat sources, electrical hazards or moving machinery
- Energy Absorbers (If applicable): If an energy absorber show signs of having sustained a fall (usually by elongation), it should be discarded. Suspension: If a person is suspended in a harness for a length of time and is immobilized they may, depending on the individual's susceptibility, suffer from "Suspension Trauma".

1. Take the Harness out of the packaging. Whilst holding the rear Dee ring, shake the harness so all of the straps fall into place. If the leg and chest strap buckles are fastened, release straps by unbuckling. To remove: lift small top plate and align with slots in bottom plate. Using thumb and finger, guide the small plate through slots.

2. Hold harness in the air by the rear D-ring and establish shoulder straps. Bring the harness over the torso, so the rear D-ring sits to the middle back, and the shoulder straps sit on each shoulder.

3. Adjust and fasten chest strap.

4. Pull right leg strap between legs, and fasten with corresponding buckle on right hand side. Repeat process with the left-hand leg strap. Do not cross straps between legs.

Fit should be snug, but not restrictive of movement.

5. Run your hands over the harness to ensure there is no twisting or bunching. If a strap is not lying correctly, remove your harness and refit as per the above instructions.

§1670. Personal Fall Arrest Systems, Personal Fall Restraint Systems and Positioning Devices.

(a) Approved personal fall arrest, personal fall restraint or positioning systems shall be worn by those employees whose work exposes them to falling in excess of 7 1/2 feet

SAFETY MANUAL

11.0 ACCIDENTS REPORTING / BLOOD BORNE PATHOGEN EXPOSURE

A. GENERAL INFORMATION

Supervisors are directly responsible to ensure that all employees are trained in accident reporting. Employees are required to report all injuries or accidents to their supervisor immediately no matter how slight the occurrence. There are four types of accidents that may happen as a result of work-related activities. These are:

- 1) Vehicle Accident w/o Employee Injury
- 2) Vehicle Accident w/ Employee Injury
- 3) Employee Injury – Non-Vehicle related
- 4) Project Accident

These accidents are summarized on the Bureau Safety Committee Safety Webpage. Each type of accident requires specific Accident Reporting Forms and notification requirements.

Accident Reporting Flow Chart

B. REPORTING FORMS

All forms are available on the BCA Webpage in the Safety Section with samples included at the end of this chapter (Attachment CH 11 A – 2023 BCA Accident Reporting Flowchart). Each form has clear instructions. Additional information is available on several City websites.

C. ACCIDENT REPORTING PROCEDURES

1) Vehicle Accident w/o Employee Injury

a: Employee Responsibility

- i - All mileage vehicles must carry Form Gen 88 in vehicle glove compartment
- ii - Stop immediately
- iii - Employee may offer to provide first aid to injured party
- iv - Notify LAPD
- v - Notify supervisor and main office
- vi - Complete Form Gen 88 regardless how slight the injury or damage
- vii - Take pictures of all vehicles involved; take pictures of other party
- viii - Record the names and contact information of any witnesses on Form Gen 88
- ix - Notify the insurance carrier
- x - If damage exceeds \$500 notify DMV within 10 days
- xi - If the vehicle is city-owned then the employee must take vehicle to GSD Fleet Services within 5 working days
- xii - Submit Form Gen 88 to supervisor

b: Supervisor Responsibility

- i - Review Form Gen 88 (if information is missing return to employee)

SAFETY MANUAL

- ii - Sign Form Gen 88
- iii - Complete Form Gen 88 Supplemental
- iv - Perform thorough investigation
- v - If corrective actions are recommended communicate with Admin HR and the Division Chief
- vi - Submit to Division Chief for Signature
- vii - When forms are completed the supervisor will distribute copies as follows:
 - Original to BCA Timekeeper
 - Copy to Safety Engineer
 - Copy to Employee

2) Employee Injury – Non Vehicle

a: Employee Responsibility

- i - Must report any injury no matter how slight
- ii - Complete California WC Form 5020 and submit to supervisor
- iii - May or may not choose to complete WC Claim Form DWC 1

b: Supervisor Responsibility

- i - If the injury is not life threatening, the supervisor should refer the employee to a designated medical clinic, first care panel or to his/her pre-designated physician. The employee may be treated by his personal doctor if he/she has a pre-designated physician form on file with the Workers Compensation Division prior to the injury or illness. The supervisor must give the employee the “Injury Status Report Form” (Form 195) with the attached instructions prior to any visit to the doctor for an industrial injury or illness. A copy of Form 195 can be downloaded from http://per.ci.la.ca.us/WorkCmp/Injury_Status_Report.pdf
- ii - For all accidents that involves any serious injury or illness (requiring inpatient hospitalization), or death refer to CH11.E.
- iii - The supervisor must give the employee both claim forms (5020 & DWC-1 and Notice of Potential Eligibility) within one working day of receiving notice or knowledge of injury. It is recommended that the supervisor assists the employee to fill out the forms.

SAFETY MANUAL

- iv - Supervisor should review the employee completed forms and sign
 - v - Complete BCA Supplemental WC Form 5020
 - vi - If corrective actions are recommended communicate with Admin HR and the Division Chief
 - vii - Submit to Division Chief for review and signature
 - viii - When forms are completed the supervisor will distribute copies as follows:
 - Original to BCA Timekeeper
 - Copy to Safety Engineer
 - Copy to Employee
- 3) Vehicle Accident w Employee Injury
- a: All forms should be completed as outlined above
- 4) Project Accident
- a: Requires Form Gen M-29
 - b: If the inspector was not present at the time of the accident the M-29 should still be filled out with the best information that can be gathered from witnesses/workers at the site.
 - c: The inspector should take pictures of any damage or injury
 - d: The supervisor should request accident reports from the contractor
 - e: If there are “Lessons to be learned” the inspector should complete the supplemental section on the back of the form
 - f: The original reports should be submitted to the Safety Engineer. Copies should be kept in the job file

D. SUPERVISOR INVESTIGATION/DOCUMENTATION

- 1) Supervisors shall investigate all reported accidents, injuries, occupational illnesses, and near-miss incidents. Supervisors investigating accidents or injuries shall document all information that is gathered during the investigation process.
- 2) The supervisor must document all interviews with the injured employee(s) and witness(es), examine the workplace for factors associated with the accident, review work procedures and training, determine cause, and take corrective action.
- 3) The supervisor shall complete the Supplemental forms in a timely manner

SAFETY MANUAL

- 4) If the employee is too badly injured or too ill to complete the forms then the supervisor shall complete the forms by interviewing the employee, interviewing the contractor or witnesses or by reviewing project documents or police reports.
- 5) If discipline or corrective actions are recommended the supervisor shall meet with the Division Chief and Administrative HR staff to ensure that City policies are correctly applied.
- 6) The supervisor is responsible for all forms that must be completed and submitted to the Timekeeper and the Safety Engineer

E. REPORTING SERIOUS INJURY/ILLNESS OR DEATH

- 1) In the event that an employee while in a place of employment or in connection with any employment suffers “any serious injury or illness, or death¹” the employer shall “immediately¹” contact the nearest District Office of the DOSH pursuant to Title 8.
- 2) City of Los Angeles Board of Public Works also requires notification in the event of a serious injury/illness or death within 6 hours per Policy #16 (Attachment CH11.C)
- 3) The BCA employee that is the first to be aware of an employee suffering the serious injury or illness, or death must;
 - a: Contact 9-1-1 or local emergency number (if not already called)
 - b: Must contact at least one of the following personnel
 - i - Supervisor
 - ii - Division Chief
 - iii - Dispatch
 - iv - Main Office – Exec Secretary/alternate
 - c: The following information must be immediately conveyed;
 - i - Name of employee injured
 - ii - Type and severity of injury or illness

¹ Per Title 8 Section 330 (h) **“Serious injury or illness”** means any injury or illness occurring in a place of employment or in connection with any employment that requires inpatient hospitalization for other than medical observation or diagnostic testing, or in which an employee suffers an amputation, the loss of an eye, or any serious degree of permanent disfigurement, but does not include any injury or illness or death caused by an accident on a public street or highway, unless the accident occurred in a construction zone..

“Immediately” means as soon as practically possible but not longer than 8 hours after the employer knows or with diligent inquiry would have known of the death or serious injury or illness. If the employer can demonstrate that exigent circumstances exist, the time frame for the report may be made no longer than 24 hours after the incident.

SAFETY MANUAL

- iii - Location
 - iv - Emergency personnel on site
 - v - Any other information that is available
 - vi - Determination on which party will contact Cal-OSHA
- 4) This employee may choose to accompany the injured worker to the closest First Care Facility or the local emergency room
- 5) The accident site must be safe-guarded so that all evidence is protected for the BCA or Cal-OSHA or police investigation.

F. ACCIDENTS INVOLVING EXPOSURE

- 1) Any employee that may have had exposure to hazardous chemicals, asbestos, or lead must be reported to the Department's Occupational Safety and Health Division immediately at (213) 473-7097.
- 2) If a City employee is exposed to any human fluid like blood, mucus or other discharge they should refer to Tailgate Safety Meeting Topic - Bloodborne Pathogens. In summary the following five points summarizes the BCA Bloodborne Pathogen plan.
- a: Personnel Department Occupational Safety and Health has determined that all BCA employees have an extremely low risk of exposure with blood or infectious material.
 - b: All inspection classes in BCA are identified as "Emergency First Aid Respondee" and may choose whether or not to respond to a particular first aid incident.
 - c: Universal Precautions implies that all body fluids (if encountered) will be identified and handled as if they are known to be infectious, regardless of source.
 - d: Exposure is when a specific work-related event in which blood or other potentially infectious material makes contact with the employee's eye, mouth, nose or open cut or puncture.
 - e: In the event of an exposure incident, the employee must
 - i - Immediately clean all wounds
 - ii - Report all contact with body fluids or infectious material to their supervisor
 - iii - Immediately contact City of Los Angeles Occupational Health and Safety Division (OHSD) for evaluation.
 - iv - City OHSD reports are confidential between them and the employee.

NOTE FOR ALL FORMS: Must be signed by Supervisor Original Copy: BCA Timekeeper

Copy: Safety Committee & Employee

If the BCA employee refuses medical treatment at the time of their injury their supervisor shall request them to fill outLos Angeles Medical Services DeptDeclination of Medical Treatment**Bloodborne Pathogen**

1. Immediately clean all wounds
2. Report all contact with body fluids or infectious material to their supervisor.
3. Immediately contact City of Los Angeles Occupational Health and Safety Division (OHSD) for evaluation at (213) 473-7097.

Complete BCA Form

2. Form 88 Supplemental Form - BCA

NOTE:

If the vehicle is a City owned fleet vehicle then take the vehicle to GSD Fleet Services within 5 working days. The BCA time keeper will send a Form 88 copy to GSD Fleet Services & Personnel Department.

Exposure – Hazardous Chemicals

Any employee that may have had exposure to hazardous chemicals, asbestos, or lead must be reported to the Department's Occupational Safety and Health Division immediately at (213) 473-7097.

Complete 1 Form**PROJECT ACCIDENT FORM M-29**

Must be signed by supervisor

Original – Safety Committee

Copy – Job File

NOTE:

This form needs to be filed with BCA within 5 working days after the inspector has received knowledge of accident. Report should include pictures wherever possible.

BCA Policy: Employee w/ Serious Injury – Illness - Death on Duty

- 1) Call 9-1-1
- 2) Call Supervisor
- 3) Call Division Chief

Supervisor shall complete Attachment CH11 B prior to calling Cal-OSHA

CAL-OSHA NOTIFICATION

Immediately
(within 8 hours)

City Los Angeles Safety Engineer – (213) 473-6981

Cal-OSHA L.A. District Office: (213) 576-7451

Cal-OSHA Monrovia District Office: (626) 239-0369

Cal-OSHA Van Nuys District Office: (818) 901-5403

If the accident resulted in a fatality the Chief should contact BPW per Personnel Policy 16

Heat Exhaustion

The most common signs and symptoms of heat exhaustion include; confusion, dizziness, fainting, fatigue, headache, nausea, rapid heat beat.

Things to do:

- 1) Lower Body Temp - Move person into a cool environment.
- 2) Rehydrate - Nonalcoholic and non-caffeinated beverages
- 3) Rest - No physical activity until recovered.
- 4) Call 9-1-1 if;
 - Symptoms get worse or last more than an hour
 - The person is nauseated or vomiting

Per Title 8 Section 330 (h) **"Serious injury or illness"** means any injury or illness occurring in a place of employment or in connection with any employment that **requires inpatient hospitalization for other than medical observation or diagnostic testing**, or in which an employee suffers an amputation, the loss of an eye, or any serious degree of permanent disfigurement, but does not include any injury or illness or death caused by an accident on a public street or highway, unless the accident occurred in a construction zone..

"Immediately" means as soon as practically possible but not longer than 8 hours after the employer knows or with diligent inquiry would have known of the death or serious injury or illness. If the employer can demonstrate that exigent circumstances exist, the time frame for the report may be made no longer than 24 hours after the incident.

PROJECT ACCIDENT REPORT

Supervisors are required to date this form and provide copies to the BCA Timekeeper and to the employee.

Workers' Compensation Claim Form (DWC 1) & Notice of Potential Eligibility *Formulario de Reclamo de Compensación de Trabajadores (DWC 1) y Notificación de Posible Elegibilidad*

If you are injured or become ill, either physically or mentally, because of your job, including injuries resulting from a workplace crime, you may be entitled to workers' compensation benefits. Use the attached form to file a workers' compensation claim with your employer. **You should read all of the information below.** Keep this sheet and all other papers for your records. You may be eligible for some or all of the benefits listed depending on the nature of your claim. If you file a claim, the claims administrator, who is responsible for handling your claim, must notify you within 14 days whether your claim is accepted or whether additional investigation is needed.

To file a claim, complete the "Employee" section of the form, keep one copy and give the rest to your employer. Do this right away to avoid problems with your claim. In some cases, benefits will not start until you inform your employer about your injury by filing a claim form. Describe your injury completely. Include every part of your body affected by the injury. If you mail the form to your employer, use first-class or certified mail. If you buy a return receipt, you will be able to prove that the claim form was mailed and when it was delivered. Within one working day after you file the claim form, your employer must complete the "Employer" section, give you a dated copy, keep one copy, and send one to the claims administrator.

Medical Care: Your claims administrator will pay for all reasonable and necessary medical care for your work injury or illness. Medical benefits are subject to approval and may include treatment by a doctor, hospital services, physical therapy, lab tests, x-rays, medicines, equipment and travel costs. Your claims administrator will pay the costs of approved medical services directly so you should never see a bill. There are limits on chiropractic, physical therapy, and other occupational therapy visits.

The Primary Treating Physician (PTP) is the doctor with the overall responsibility for treatment of your injury or illness.

- If you previously designated your personal physician or a medical group, you may see your personal physician or the medical group after you are injured.
- If your employer is using a medical provider network (MPN) or Health Care Organization (HCO), in most cases, you will be treated in the MPN or HCO unless you predesignated your personal physician or a medical group. An MPN is a group of health care providers who provide treatment to workers injured on the job. You should receive information from your employer if you are covered by an HCO or a MPN. Contact your employer for more information.
- If your employer is not using an MPN or HCO, in most cases, the claims administrator can choose the doctor who first treats you unless you predesignated your personal physician or a medical group.
- If your employer has not put up a poster describing your rights to workers' compensation, you may be able to be treated by your personal physician right after you are injured.

Within one working day after you file a claim form, your employer or the claims administrator must authorize up to \$10,000 in treatment for your injury, consistent with the applicable treating guidelines until the claim is accepted or rejected. If the employer or claims administrator does not authorize treatment right away, talk to your supervisor, someone else in management, or the claims administrator. Ask for treatment to be authorized right now, while waiting for a decision on your claim. If the employer or claims administrator will not authorize treatment, use your own health insurance to get medical care. Your health insurer will seek reimbursement from the claims administrator. If you do not have health insurance, there are doctors, clinics or hospitals that will treat you without immediate payment. They will seek reimbursement from the claims administrator.

Switching to a Different Doctor as Your PTP:

- If you are being treated in a Medical Provider Network (MPN), you may switch to other doctors within the MPN after the first visit.
- If you are being treated in a Health Care Organization (HCO), you may switch at least one time to another doctor within the HCO. You may switch to a doctor outside the HCO 90 or 180 days after your injury is reported to your employer (depending on whether you are covered by employer-provided health insurance).
- If you are not being treated in an MPN or HCO and did not predesignate, you may switch to a new doctor one time during the first 30 days after your injury is reported to your employer. Contact the claims administrator to switch doctors. After 30 days, you may switch to a doctor of your choice if

Si Ud. se lesiona o se enferma, ya sea físicamente o mentalmente, debido a su trabajo, incluyendo lesiones que resulten de un crimen en el lugar de trabajo, es posible que Ud. tenga derecho a beneficios de compensación de trabajadores. Utilice el formulario adjunto para presentar un reclamo de compensación de trabajadores con su empleador. **Ud. debe leer toda la información a continuación.** Guarde esta hoja y todos los demás documentos para sus archivos. Es posible que usted reúna los requisitos para todos los beneficios, o parte de éstos, que se enumeran dependiendo de la índole de su reclamo. Si usted presenta un reclamo, el administrador de reclamos, quien es responsable por el manejo de su reclamo, debe notificarle dentro de 14 días si se acepta su reclamo o si se necesita investigación adicional.

Para presentar un reclamo, llene la sección del formulario designada para el "Empleado," guarde una copia, y déle el resto a su empleador. Haga esto de inmediato para evitar problemas con su reclamo. En algunos casos, los beneficios no se iniciarán hasta que usted le informe a su empleador acerca de su lesión mediante la presentación de un formulario de reclamo. Describa su lesión por completo. Incluya cada parte de su cuerpo afectada por la lesión. Si usted le envía por correo el formulario a su empleador, utilice primera clase o correo certificado. Si usted compra un acuse de recibo, usted podrá demostrar que el formulario de reclamo fue enviado por correo y cuando fue entregado. Dentro de un día laboral después de presentar el formulario de reclamo, su empleador debe completar la sección designada para el "Empleador," le dará a Ud. una copia fechada, guardará una copia, y enviará una al administrador de reclamos.

Atención Médica: Su administrador de reclamos pagará por toda la atención médica razonable y necesaria para su lesión o enfermedad relacionada con el trabajo. Los beneficios médicos están sujetos a la aprobación y pueden incluir tratamiento por parte de un médico, los servicios de hospital, la terapia física, los análisis de laboratorio, las medicinas, equipos y gastos de viaje. Su administrador de reclamos pagará directamente los costos de los servicios médicos aprobados de manera que usted nunca verá una factura. Hay límites en terapia quiropráctica, física y otras visitas de terapia ocupacional.

El Médico Primario que le Atiende (Primary Treating Physician- PTP) es el médico con la responsabilidad total para tratar su lesión o enfermedad.

- Si usted designó previamente a su médico personal o a un grupo médico, usted podrá ver a su médico personal o grupo médico después de lesionarse.
- Si su empleador está utilizando una red de proveedores médicos (*Medical Provider Network- MPN*) o una Organización de Cuidado Médico (*Health Care Organization- HCO*), en la mayoría de los casos, usted será tratado en la *MPN* o *HCO* a menos que usted hizo una designación previa de su médico personal o grupo médico. Una *MPN* es un grupo de proveedores de asistencia médica quien da tratamiento a los trabajadores lesionados en el trabajo. Usted debe recibir información de su empleador si su tratamiento es cubierto por una *HCO* o una *MPN*. Hable con su empleador para más información.
- Si su empleador no está utilizando una *MPN* o *HCO*, en la mayoría de los casos, el administrador de reclamos puede elegir el médico que lo atiende primero a menos de que usted hizo una designación previa de su médico personal o grupo médico.
- Si su empleador no ha colocado un cartel describiendo sus derechos para la compensación de trabajadores, Ud. puede ser tratado por su médico personal inmediatamente después de lesionarse.

Dentro de un día laboral después de que Ud. Presente un formulario de reclamo, su empleador o el administrador de reclamos debe autorizar hasta \$10000 en tratamiento para su lesión, de acuerdo con las pautas de tratamiento aplicables, hasta que el reclamo sea aceptado o rechazado. Si el empleador o administrador de reclamos no autoriza el tratamiento de inmediato, hable con su supervisor, alguien más en la gerencia, o con el administrador de reclamos. Pida que el tratamiento sea autorizado ya mismo, mientras espera una decisión sobre su reclamo. Si el empleador o administrador de reclamos no autoriza el tratamiento, utilice su propio seguro médico para recibir atención médica. Su compañía de seguro médico buscará reembolso del administrador de reclamos. Si usted no tiene seguro médico, hay médicos, clínicas u hospitales que lo tratarán sin pago inmediato. Ellos buscarán reembolso del administrador de reclamos.

Cambiando a otro Médico Primario o PTP:

- Si usted está recibiendo tratamiento en una Red de Proveedores Médicos

your employer or the claims administrator has not created or selected an MPN.

Disclosure of Medical Records: After you make a claim for workers' compensation benefits, your medical records will not have the same level of privacy that you usually expect. If you don't agree to voluntarily release medical records, a workers' compensation judge may decide what records will be released. If you request privacy, the judge may "seal" (keep private) certain medical records.

Problems with Medical Care and Medical Reports: At some point during your claim, you might disagree with your PTP about what treatment is necessary. If this happens, you can switch to other doctors as described above. If you cannot reach agreement with another doctor, the steps to take depend on whether you are receiving care in an MPN, HCO, or neither. For more information, see "Learn More About Workers' Compensation," below.

If the claims administrator denies treatment recommended by your PTP, you may request independent medical review (IMR) using the request form included with the claims administrator's written decision to deny treatment. The IMR process is similar to the group health IMR process, and takes approximately 40 (or fewer) days to arrive at a determination so that appropriate treatment can be given. Your attorney or your physician may assist you in the IMR process. IMR is not available to resolve disputes over matters other than the medical necessity of a particular treatment requested by your physician.

If you disagree with your PTP on matters other than treatment, such as the cause of your injury or how severe the injury is, you can switch to other doctors as described above. If you cannot reach agreement with another doctor, notify the claims administrator in writing as soon as possible. In some cases, you risk losing the right to challenge your PTP's opinion unless you do this promptly. If you do not have an attorney, the claims administrator must send you instructions on how to be seen by a doctor called a qualified medical evaluator (QME) to help resolve the dispute. If you have an attorney, the claims administrator may try to reach agreement with your attorney on a doctor called an agreed medical evaluator (AME). If the claims administrator disagrees with your PTP on matters other than treatment, the claims administrator can require you to be seen by a QME or AME.

Payment for Temporary Disability (Lost Wages): If you can't work while you are recovering from a job injury or illness, you may receive temporary disability payments for a limited period. These payments may change or stop when your doctor says you are able to return to work. These benefits are tax-free. Temporary disability payments are two-thirds of your average weekly pay, within minimums and maximums set by state law. Payments are not made for the first three days you are off the job unless you are hospitalized overnight or cannot work for more than 14 days.

Stay at Work or Return to Work: Being injured does not mean you must stop working. If you can continue working, you should. If not, it is important to go back to work with your current employer as soon as you are medically able. Studies show that the longer you are off work, the harder it is to get back to your original job and wages. While you are recovering, your PTP, your employer (supervisors or others in management), the claims administrator, and your attorney (if you have one) will work with you to decide how you will stay at work or return to work and what work you will do. Actively communicate with your PTP, your employer, and the claims administrator about the work you did before you were injured, your medical condition and the kinds of work you can do now, and the kinds of work that your employer could make available to you.

Payment for Permanent Disability: If a doctor says you have not recovered completely from your injury and you will always be limited in the work you can do, you may receive additional payments. The amount will depend on the type of injury, extent of impairment, your age, occupation, date of injury, and your wages before you were injured.

Supplemental Job Displacement Benefit (SJDB): If you were injured on or after 1/1/04, and your injury results in a permanent disability and your employer does not offer regular, modified, or alternative work, you may qualify for a nontransferable voucher payable for retraining and/or skill enhancement. If you qualify, the claims administrator will pay the costs up to the maximum set by state law.

Death Benefits: If the injury or illness causes death, payments may be made to a

(Medical Provider Network- MPN), usted puede cambiar a otros médicos dentro de la MPN después de la primera visita.

- Si usted está recibiendo tratamiento en un Organización de Cuidado Médico (Healthcare Organization- HCO), es posible cambiar al menos una vez a otro médico dentro de la HCO. Usted puede cambiar a un médico fuera de la HCO 90 o 180 días después de que su lesión es reportada a su empleador (dependiendo de si usted está cubierto por un seguro médico proporcionado por su empleador).
- Si usted no está recibiendo tratamiento en una MPN o HCO y no hizo una designación previa, usted puede cambiar a un nuevo médico una vez durante los primeros 30 días después de que su lesión es reportada a su empleador. Póngase en contacto con el administrador de reclamos para cambiar de médico. Después de 30 días, puede cambiar a un médico de su elección si su empleador o el administrador de reclamos no ha creado o seleccionado una MPN.

Divulgación de Expedientes Médicos: Después de que Ud. presente un reclamo para beneficios de compensación de trabajadores, sus expedientes médicos no tendrán el mismo nivel de privacidad que usted normalmente espera. Si Ud. no está de acuerdo en divulgar voluntariamente los expedientes médicos, un juez de compensación de trabajadores posiblemente decida qué expedientes serán revelados. Si usted solicita privacidad, es posible que el juez "selle" (mantenga privados) ciertos expedientes médicos.

Problemas con la Atención Médica y los Informes Médicos: En algún momento durante su reclamo, podría estar en desacuerdo con su PTP sobre qué tratamiento es necesario. Si esto sucede, usted puede cambiar a otros médicos como se describe anteriormente. Si no puede llegar a un acuerdo con otro médico, los pasos a seguir dependen de si usted está recibiendo atención en una MPN, HCO o ninguna de las dos. Para más información, consulte la sección "Aprenda Más Sobre la Compensación de Trabajadores," a continuación.

Si el administrador de reclamos niega el tratamiento recomendado por su PTP, puede solicitar una revisión médica independiente (*Independent Medical Review-IMR*), utilizando el formulario de solicitud que se incluye con la decisión por escrito del administrador de reclamos negando el tratamiento. El proceso de la IMR es parecido al proceso de la IMR de un seguro médico colectivo, y tarda aproximadamente 40 (o menos) días para llegar a una determinación de manera que se pueda dar un tratamiento apropiado. Su abogado o su médico le pueden ayudar en el proceso de la IMR. La IMR no está disponible para resolver disputas sobre cuestiones aparte de la necesidad médica de un tratamiento particular solicitado por su médico.

Si no está de acuerdo con su PTP en cuestiones aparte del tratamiento, como la causa de su lesión o la gravedad de la lesión, usted puede cambiar a otros médicos como se describe anteriormente. Si no puede llegar a un acuerdo con otro médico, notifique al administrador de reclamos por escrito tan pronto como sea posible. En algunos casos, usted arriesga perder el derecho a objetar a la opinión de su PTP a menos que hace esto de inmediato. Si usted no tiene un abogado, el administrador de reclamos debe enviarle instrucciones para ser evaluado por un médico llamado un evaluador médico calificado (*Qualified Medical Evaluator-QME*) para ayudar a resolver la disputa. Si usted tiene un abogado, el administrador de reclamos puede tratar de llegar a un acuerdo con su abogado sobre un médico llamado un evaluador médico acordado (*Agreed Medical Evaluator- AME*). Si el administrador de reclamos no está de acuerdo con su PTP sobre asuntos aparte del tratamiento, el administrador de reclamos puede exigirle que sea atendido por un QME o AME.

Pago por Incapacidad Temporal (Sueldos Perdidos): Si Ud. no puede trabajar, mientras se está recuperando de una lesión o enfermedad relacionada con el trabajo, Ud. puede recibir pagos por incapacidad temporal por un periodo limitado. Estos pagos pueden cambiar o parar cuando su médico diga que Ud. está en condiciones de regresar a trabajar. Estos beneficios son libres de impuestos. Los pagos por incapacidad temporal son dos tercios de su pago semanal promedio, con cantidades mínimas y máximas establecidas por las leyes estatales. Los pagos no se hacen durante los primeros tres días en que Ud. no trabaje, a menos que Ud. sea hospitalizado una noche o no puede trabajar durante más de 14 días.

Permanezca en el Trabajo o Regreso al Trabajo: Estar lesionado no significa que usted debe dejar de trabajar. Si usted puede seguir trabajando, usted debe hacerlo. Si no es así, es importante regresar a trabajar con su empleador actual tan

spouse and other relatives or household members who were financially dependent on the deceased worker.

It is illegal for your employer to punish or fire you for having a job injury or illness, for filing a claim, or testifying in another person's workers' compensation case (Labor Code 132a). If proven, you may receive lost wages, job reinstatement, increased benefits, and costs and expenses up to limits set by the state.

Resolving Problems or Disputes: You have the right to disagree with decisions affecting your claim. If you have a disagreement, contact your employer or claims administrator first to see if you can resolve it. If you are not receiving benefits, you may be able to get State Disability Insurance (SDI) or unemployment insurance (UI) benefits. Call the state Employment Development Department at (800) 480-3287 or (866) 333-4606, or go to their website at www.edd.ca.gov.

You Can Contact an Information & Assistance (I&A) Officer: State I&A officers answer questions, help injured workers, provide forms, and help resolve problems. Some I&A officers hold workshops for injured workers. To obtain important information about the workers' compensation claims process and your rights and obligations, go to www.dwc.ca.gov or contact an I&A officer of the state Division of Workers' Compensation. You can also hear recorded information and a list of local I&A offices by calling (800) 736-7401.

You can consult with an attorney. Most attorneys offer one free consultation. If you decide to hire an attorney, his or her fee will be taken out of some of your benefits. For names of workers' compensation attorneys, call the State Bar of California at (415) 538-2120 or go to their website at www.californiaspecialist.org.

Learn More About Workers' Compensation: For more information about the workers' compensation claims process, go to www.dwc.ca.gov. At the website, you can access a useful booklet, "Workers' Compensation in California: A Guidebook for Injured Workers." You can also contact an Information & Assistance Officer (above), or hear recorded information by calling 1-800-736-7401.

pronto como usted pueda medicamente hacerlo. Los estudios demuestran que entre más tiempo esté fuera del trabajo, más difícil es regresar a su trabajo original y a sus salarios. Mientras se está recuperando, su *PTP*, su empleador (supervisores u otras personas en la gerencia), el administrador de reclamos, y su abogado (si tiene uno) trabajarán con usted para decidir cómo va a permanecer en el trabajo o regresar al trabajo y qué trabajo hará. Comuníquese de manera activa con su *PTP*, su empleador y el administrador de reclamos sobre el trabajo que hizo antes de lesionarse, su condición médica y los tipos de trabajo que usted puede hacer ahora y los tipos de trabajo que su empleador podría poner a su disposición.

Pago por Incapacidad Permanente: Si un médico dice que no se ha recuperado completamente de su lesión y siempre será limitado en el trabajo que puede hacer, es posible que Ud. reciba pagos adicionales. La cantidad dependerá de la clase de lesión, grado de deterioro, su edad, ocupación, fecha de la lesión y sus salarios antes de lesionarse.

Beneficio Suplementario por Desplazamiento de Trabajo (Supplemental Job Displacement Benefit- SJDB): Si Ud. se lesionó en o después del 1/1/04, y su lesión resulta en una incapacidad permanente y su empleador no ofrece un trabajo regular, modificado, o alternativo, usted podría cumplir los requisitos para recibir un vale no-transferible pagadero a una escuela para recibir un nuevo un curso de reentrenamiento y/o mejorar su habilidad. Si Ud. cumple los requisitos, el administrador de reclamos pagará los gastos hasta un máximo establecido por las leyes estatales.

Beneficios por Muerte: Si la lesión o enfermedad causa la muerte, es posible que los pagos se hagan a un cónyuge y otros parientes o a las personas que viven en el hogar que dependían económicamente del trabajador difunto.

Es ilegal que su empleador le castigue o despidan por sufrir una lesión o enfermedad laboral, por presentar un reclamo o por testificar en el caso de compensación de trabajadores de otra persona. (Código Laboral, sección 132a.) De ser probado, usted puede recibir pagos por pérdida de sueldos, reposición del trabajo, aumento de beneficios y gastos hasta los límites establecidos por el estado.

Resolviendo problemas o disputas: Ud. tiene derecho a no estar de acuerdo con las decisiones que afecten su reclamo. Si Ud. tiene un desacuerdo, primero comuníquese con su empleador o administrador de reclamos para ver si usted puede resolverlo. Si usted no está recibiendo beneficios, es posible que Ud. pueda obtener beneficios del Seguro Estatal de Incapacidad (*State Disability Insurance- SDI*) o beneficios del desempleo (*Unemployment Insurance- UI*). Llame al Departamento del Desarrollo del Empleo estatal al (800) 480-3287 o (866) 333-4606, o visite su página Web en www.edd.ca.gov.

Puede Contactar a un Oficial de Información y Asistencia (Information & Assistance- I&A): Los Oficiales de Información y Asistencia (*I&A*) estatal contestan preguntas, ayudan a los trabajadores lesionados, proporcionan formularios y ayudan a resolver problemas. Algunos oficiales de *I&A* tienen talleres para trabajadores lesionados. Para obtener información importante sobre el proceso de la compensación de trabajadores y sus derechos y obligaciones, vaya a www.dwc.ca.gov o comuníquese con un oficial de información y asistencia de la División Estatal de Compensación de Trabajadores. También puede escuchar información grabada y una lista de las oficinas de *I&A* locales llamando al (800) 736-7401.

Ud. puede consultar con un abogado. La mayoría de los abogados ofrecen una consulta gratis. Si Ud. decide contratar a un abogado, los honorarios serán tomados de algunos de sus beneficios. Para obtener nombres de abogados de compensación de trabajadores, llame a la Asociación Estatal de Abogados de California (*State Bar*) al (415) 538-2120, o consulte su página Web en www.californiaspecialist.org.

Aprenda Más Sobre la Compensación de Trabajadores: Para obtener más información sobre el proceso de reclamos del programa de compensación de trabajadores, vaya a www.dwc.ca.gov. En la página Web, podrá acceder a un folleto útil, "Compensación del Trabajador de California: Una Guía para Trabajadores Lesionados." También puede contactar a un oficial de Información y Asistencia (arriba), o escuchar información grabada llamando al 1-800-736-7401.

WORKERS' COMPENSATION CLAIM FORM (DWC 1)

PETITION DEL EMPLEADO PARA DE COMPENSACIÓN DEL TRABAJADOR (DWC 1)

Employee: Complete the "Employee" section and give the form to your employer. Keep a copy and mark it "Employee's Temporary Receipt" until you receive the signed and dated copy from your employer. You may call the Division of Workers' Compensation and hear recorded information at **(800) 736-7401**. An explanation of workers' compensation benefits is included in the Notice of Potential Eligibility, which is the cover sheet of this form. Detach and save this notice for future reference.

You should also have received a pamphlet from your employer describing workers' compensation benefits and the procedures to obtain them. You may receive written notices from your employer or its claims administrator about your claim. If your claims administrator offers to send you notices electronically, and you agree to receive these notices only by email, please provide your email address below and check the appropriate box. If you later decide you want to receive the notices by mail, you must inform your employer in writing.

Any person who makes or causes to be made any knowingly false or fraudulent material statement or material representation for the purpose of obtaining or denying workers' compensation benefits or payments is guilty of a felony.

Empleado: Complete la sección "Empleado" y entregue la forma a su empleador. Quédese con la copia designada "Recibo Temporal del Empleado" hasta que Ud. reciba la copia firmada y fechada de su empleador. Ud. puede llamar a la Division de Compensación al Trabajador al **(800) 736-7401** para oír información gravada. Una explicación de los beneficios de compensación de trabajadores está incluido en la Notificación de Posible Elegibilidad, que es la hoja de portada de esta forma. Separe y guarde esta notificación como referencia para el futuro.

Ud. también debería haber recibido de su empleador un folleto describiendo los beneficios de compensación al trabajador lesionado y los procedimientos para obtenerlos. Es posible que reciba notificaciones escritas de su empleador o de su administrador de reclamos sobre su reclamo. Si su administrador de reclamos ofrece enviarle notificaciones electrónicamente, y usted acepta recibir estas notificaciones solo por correo electrónico, por favor proporcione su dirección de correo electrónico abajo y marque la caja apropiada. Si usted decide después que quiere recibir las notificaciones por correo, usted debe de informar a su empleador por escrito.

Toda aquella persona que a propósito haga o cause que se produzca cualquier declaración o representación material falsa o fraudulenta con el fin de obtener o negar beneficios o pagos de compensación a trabajadores lesionados es culpable de un crimen mayor "felonia".

PREDESIGNATION OF PERSONAL PHYSICIAN

In the event you sustain an injury or illness related to your employment, you may be treated for such injury or illness by your personal medical doctor (M.D.), doctor of osteopathic medicine (D.O.) or medical group if:

- on the date of your work injury you have health care coverage for injuries or illnesses that are not work related;
- the doctor is your regular physician, who shall be either a physician who has limited his or her practice of medicine to general practice or who is a board-certified or board-eligible internist, pediatrician, obstetrician-gynecologist, or family practitioner, and has previously directed your medical treatment, and retains your medical records;
- your "personal physician" may be a medical group if it is a single corporation or partnership composed of licensed doctors of medicine or osteopathy, which operates an integrated multispecialty medical group providing comprehensive medical services predominantly for nonoccupational illnesses and injuries;
- prior to the injury your doctor agrees to treat you for work injuries or illnesses;
- prior to the injury you provided your employer the following in writing: (1) notice that you want your personal doctor to treat you for a work-related injury or illness, and (2) your personal doctor's name and business address.

You may use this form to notify your employer if you wish to have your personal medical doctor or a doctor of osteopathic medicine treat you for a work-related injury or illness and the above requirements are met.

NOTICE OF PREDESIGNATION OF PERSONAL PHYSICIAN

Employee: Complete this section.

To: _____ (name of employer) If I have a work-related injury or illness, I choose to be treated by:

(name of doctor)(M.D., D.O., or medical group)

(street address, city, state, ZIP)

(telephone number)

Employee Name (please print):

Employee's Address:

Name of Insurance Company, Plan, or Fund providing health coverage for nonoccupational injuries or illnesses:

Employee's Signature _____ Date: _____

Physician: I agree to this Predesignation:

Signature: _____ Date: _____
(Physician or Designated Employee of the Physician or Medical Group)

The physician is not required to sign this form, however, if the physician or designated employee of the physician or medical group does not sign, other documentation of the physician's agreement to be predesignated will be required pursuant to Title 8, California Code of Regulations, section 9780.1(a)(3).

Title 8, California Code of Regulations, section 9783.

MAYOR

INJURY STATUS REPORT

INSTRUCTIONS

EMPLOYEE RESPONSIBILITIES:

1. Provide this Injury Status Report form to your treating doctor (physician) each time you are being treated for a job-related injury.
2. Obtained specific work restrictions from your physician.
3. Provide this completed form to your supervisor immediately after the physician places you off duty, evaluated you, and determines that you may return to work.
4. Comply with the physician's restrictions or prescribed treatment (i.e., physical therapy) and avoid activities that may re-aggravate your injury.

PHYSICIAN'S RESPONSIBILITY:

1. Complete this form for all City of Los Angeles employees who are treated for industrial or non-industrial injuries and give it to the employee each time you evaluate, place off duty, impose temporary work restrictions, or return the employee to full duty.
2. Please be clear and specific when documenting restrictions. As a large and diverse employer, the City may be able to temporarily accommodate the employee's restrictions in their current job or in a temporary assignment performing activities outside the normally assigned duties. The employee may be unaware of available accommodations. The restrictions you provide will enable the City to properly accommodate the employee and protect the employee from further injury.

Attachment A, page 1

CITY OF LOS ANGELES INJURY STATUS REPORT: Obtain Instructions+Original from the web at http://per.ci.la.ca.us/WorkCmp/Injury_Status_Report.pdf

**THIS FORM MUST BE USED TO REPORT INJURY STATUS
FOR EMPLOYEES OF THE CITY OF LOS ANGELES**

To the physician: The City of Los Angeles requires that temporarily disabled employees provided clear and specific work restrictions. As a large and diverse employer, the City may be able to temporarily accommodate the employee's restrictions in their current job or performing duties outside their regular assignments. The employee may be unaware of available accommodations. The restrictions you provide will enable the City to properly accommodate the employee and protect the employee from further injury.

ADOPTED BY THE BOARD OF PUBLIC WORKS

TO ALL EMPLOYEES OF THE DEPARTMENT OF PUBLIC WORKS

**SUBJECT: NOTIFICATION OF WORK-RELATED DEATH OR OTHER
SERIOUS INCIDENTS**

The Board believes it is essential that it be notified as soon as possible whenever a death has occurred and a Department employee is directly or indirectly involved as a result of his/her official City duties. This notification requirement also includes other serious incidents that need to be immediately brought to the Board's attention.

The Heads of the Bureaus and Offices in the Department of Public Works are instructed to personally notify the President or Vice-President of the Board within six hours of the incident. This notification applies on a 24-hour basis and seven days a week.

An oral presentation on the incident should be made at the next Board meeting. However the City Attorney should be contacted for advice prior to any such presentation or public release of information to ensure that the City's legal interests are protected.

NEAR-MISS REPORTING AND INVESTIGATION FORM

Note: A **Near-Miss** is an unplanned event that did not result in an injury and/or illness but had the potential to do so.

Name of the employee completing this form:

☐ Supervisor ☐ Safety Representative ☐ Witness
☐ Other

If other, please indicate job title:

Date of the Near-Miss event:

Contact Phone Number:

Time of the Near-Miss: ____ ☐ a.m. ☐ p.m.

Location where the Near-Miss event occurred:

Address:

Area:

Supervision at time of accident:

☐ Directly supervised ☐ Indirectly supervised
☐ Not supervised ☐ Supervision not feasible

Employee was working:

☐ Alone ☐ With crew or fellow worker ☐ Other

If other, specify:

Description of the Near-Miss event. Please explain the following: 1) **Who** was involved in the Near-Miss 2) **What** exactly happened 3) **How** did the Near-Miss occur (Include photos and diagram and use additional sheet if necessary)

Were there unsafe acts that contributed to this Near-Miss event? ☐ Yes ☐ No

If "Yes", check all that apply below.

- | | |
|---|--|
| <input type="checkbox"/> Lack of training or skill | <input type="checkbox"/> Failure to lockout |
| <input type="checkbox"/> Lack of written procedure | <input type="checkbox"/> Horseplay |
| <input type="checkbox"/> Inadequate procedure | <input type="checkbox"/> Unsafe lifting |
| <input type="checkbox"/> Failure to anticipate | <input type="checkbox"/> Improper attire |
| <input type="checkbox"/> Disabled safety devices | <input type="checkbox"/> Poor housekeeping |
| <input type="checkbox"/> Operating at unsafe speeds | <input type="checkbox"/> Distracted |
| <input type="checkbox"/> Operating without proper authority | <input type="checkbox"/> Rushed |
| <input type="checkbox"/> Working on moving equipment | <input type="checkbox"/> Failure to use available equipment or tools |
| <input type="checkbox"/> Improper personal protective equipment (PPE) | <input type="checkbox"/> Other, specify _____ |

Were there unsafe conditions that contributed to this Near-Miss event? ☐ Yes ☐ No

If "Yes", check all that apply below.

- | |
|--|
| <input type="checkbox"/> Inadequate guarding |
| <input type="checkbox"/> Unsafe equipment |
| <input type="checkbox"/> Defective equipment or tools |
| <input type="checkbox"/> Improper lighting |
| <input type="checkbox"/> Improper ventilation |
| <input type="checkbox"/> Unsafe position/ergonomic issue |
| <input type="checkbox"/> Weather conditions - snow and ice |
| <input type="checkbox"/> Uneven walking surface |
| <input type="checkbox"/> Slippery walking surface |
| <input type="checkbox"/> Noise |
| <input type="checkbox"/> Other, specify _____ |

What actions have or will be taken to prevent similar incident/event?

Who is responsible for taking these actions and following up to see that they are complete (Name/Title)?

Expected completion date:

Signature:

Actual completion date:

Date:

INJURY & ILLNESS PREVENTION PROGRAM
Attachment CH11 - SERIOUS INJURY OR ILLNESS

SAFETY MANUAL

TO BE COMPLETED BY SUPERVISOR or CHIEF

As required by Title 8 regulations, [section 342](#), you must include the following information in your phone call

1. Time and date of accident/event

2. Employer's name, address and telephone number

City of Los Angeles – Public Works - Bureau of Contract Administration

c/o Mr. John L. Reamer Jr. Director

1149 South Broadway, Ste 300, Los Angeles, Ca 90015 Main Office (213) 847-1922

3. Name and job title of the person reporting the accident

4. Address of accident/event site

5. Name of person to contact at accident/event site

6. Name and address of injured employee(s)

Victim 1:

Victim 2:

7. Nature of injuries

Victim 1:

Victim 2:

8. Location where injured employee(s) was/were taken for medical treatment

| <i>Facility</i> | <i>Hosp/Clinic</i> | <i>Admitted</i> | <i>Outpatient</i> |
|-----------------|--------------------|-----------------|-------------------|
| | | | |
| | | | |

9. List and identity of other law enforcement agencies present at the accident/event site

10. Description of accident/event and whether the accident scene or instrumentality has been altered.

SAFETY MANUAL

12.0 POSTED RIGHTS FOR INJURED EMPLOYEES

A. GENERAL INFORMATION

All employers must provide work and workplaces that are safe and healthful. BCA shall follow state laws governing job safety and health. Failure to do so can result in a threat to the life or health of workers, and substantial monetary penalties. It is the responsibility of BCA to provide employees with information regarding health and safety. This includes required Cal-OSHA postings. Cal-OSHA posters provide information to employees that suffer any injury or illness. Employees may be entitled to workers' compensation benefits if they are injured or become ill because of their job. Workers' compensation covers most work-related physical or mental injuries and illnesses. An injury or illness can be caused by one event (such as hurting your back in a fall) or by repeated exposures (such as hurting your wrist from doing the same motion over and over). Specific to injured employees the following rights are provided by BCA.

Employees are also encouraged to review Board of Public Works Personnel Directive No. 11 Report of Personal Injury to city Employees <http://bpw.lacity.org/MES/dpwmm/pd/pd011.pdf>.

B. POSTERS REQUIRED IN THE WORKPLACE

- 1) Cal-OSHA required postings
<http://www.dir.ca.gov/wpnodb.html>
- 2) Form DWC 7 - Notice to Employees--Injuries Caused By Work
<http://www.dir.ca.gov/dwc/NoticePoster.pdf>
- 3) Safety and Health Protection on the Job
http://www.dir.ca.gov/dosh/dosh_publications/shpstreng012000.pdf
- 4) "Facts About On-The-Job-Injuries"
<http://per.ci.la.ca.us/WorkCmp/WC%20Pamphlet%2001-06-2012.pdf>
- 5) Log and Summary of Occupational Injury and Illness are posted by the BCA Timekeeper per State Law
 - a: Cal-OSHA Form 300A
 - i - All employers covered by Cal/OSHA - Title 8 regulations Section 14300 must complete this Annual Summary, even if no work-related injuries or illnesses occurred during the year.

SAFETY MANUAL

- ii - Employees, former employees, and their representatives have the right to review the Cal/OSHA Form 300 in its entirety. They also have limited access to the Cal/OSHA Form 301 or its equivalent. See Cal/OSHA - Title 8 regulations Section 14300.35, for further details on the access provisions for these forms.
- b: Cal-OSHA Form 300
 - i - Used to record information about every work-related death or work-related injury or illness per Cal/OSHA - Title 8 regulations.
 - ii - This form will not be posted at the worksite but is available to review from the BCA Timekeeper.
- c: Cal-OSHA Form 301
 - i - Within 7 calendar days after the employer receives information that a recordable work-related injury or illness has occurred, Form 301 or an equivalent* must be filled out.
 - ii - Cal/OSHA's recordkeeping rule, you must keep this form on file for 5 years following the year to which it pertains.
 - iii - This form will not be posted at the worksite.

C. FORMS REQUIRED FOR INJURED EMPLOYEES

All injured employees are eligible to receive benefits if injured while on duty. The supervisor will assist the injured employee in the preparation and submittal of all the forms listed. City Personnel Directive No. 56 – Return to Work Program gives additional information in regards to the rights of injured employees. The following forms are required to be submitted by the injured employee and their supervisor. Links to all forms are available on the BCA Website – Safety.

- 1) Form 5020
- 2) DWC-1 and Notice of Potential Eligibility
- 3) Duty Certificate
- 4) Mileage and Reimbursement Forms
- 5) Injury Status Report
- 6) Pre-Designated Physician Form

SAFETY MANUAL

13.0 IIPP RECORD MAINTENANCE AND RETENTION

A. GENERAL INFORMATION

Department policies and Cal/OSHA regulations contain requirements for the maintenance and retention of records for occupational injuries and illnesses, medical surveillance, exposure monitoring, inspections, and all other activities relevant to the occupational health and safety of the employee.

1) Vehicle Accidents Reports

Completed Vehicle Accident Reports (Form 88) along with its Supplemental report shall be kept on file for a period of ten (10) years, and shall be stored by BCA Administrative Division.

2) Project Accident Reports

Completed Project Accident Reports (Form M-29) shall be kept on file for a period of seven (7) years, and shall be stored by BCA Safety Engineer.

3) Occupational Injury and Illness Reports

Completed Employer's Report of Occupational Injury or illness (Form 5020), its Supplemental report and Employee's Claim for Workers' Compensation Benefits (Form DWC1) shall be kept in the confidential personnel files which are stored by BCA Administrative Division. All records relating to occupational injuries and illness shall be kept for an indefinite period.

4) Occupational Injury and Illness Information

Specific information regarding the number and type of occupational injuries and illnesses must be prepared, maintained, and posted as a requirement under the California Code of Regulations, Title 8. Each worksite shall maintain a master log (Cal/OSHA Form No. 300) and summary of occupational injuries and illnesses (Form No. 300A) for those employees assigned to that location, and post the annual summary in the workplace where other OSHA required postings are located from February 1 to April 30. All forms and logs of

SAFETY MANUAL

occupational injuries and illnesses must be preserved and maintained for a period of five (5) years.

5) Employee Exposure Records

The employee exposure record contains information regarding exposure of employees to toxic substances or harmful physical agents. These records include results of workplace monitoring or measuring of toxic substances or harmful agents which can be absorbed, inhaled or ingested by employees. These records also include employees' exposures to regulated carcinogens that may be found in the workplace. Exposure records may be generated by the City Industrial Hygienist, an outside vendor or a contractor's agent. All documents of exposure and monitoring are kept by BCA Administrative Division. All employee exposure records shall be kept on file for a period of thirty (30) years after termination of employment.

6) Employee Access to Medical Records

Records of employee work-related medical exams, medical fitness reports, medical analyses and assessments for exposure to harmful agents or substances, including required examinations for respiratory protection and hearing conservation programs, are kept on file by the City Medical Services Division of the Personnel Department. These records must be preserved and maintained for a period of thirty (30) years.

7) Documentation of Safety and Health Activities

General documents regarding safety and health issues such as safety concerns and suggestion forms, facility inspections, attendance rosters, and investigations of accidents and potential hazards, and including corrective actions, shall be maintained and preserved in the Occupational Safety and Health Division for a period of ten (10) years.

SAFETY MANUAL

14.0 EMERGENCY ACTION & FIRE PREVENTION PLAN

A. GENERAL INFORMATION

It is the responsibility of each employer to satisfy Cal-OSHA Title 8 regulations for emergency preparedness. Cal-OSHA Title 8 (GISO) §3220 Emergency Action Plan and §3221 Fire Prevention Plan stipulate the minimum requirements. This chapter establishes the effective emergency preparedness plan for BCA employees both in district main offices and offsite facilities.

Since the majority of BCA employees occupy space in buildings that are not controlled or managed by BCA the responsibility to develop the Emergency Action and Fire Prevention Plan (Plan) is controlled by the Building Management (BM). BCA does have limited responsibility for coordination with the BM and developing evacuation and floor warden plans for employees in each building.

B. MAIN OFFICE LOCATIONS – BUILDING MANAGEMENT CONTACTS

- 1) Public Works Building – 1149 South Broadway, Los Angeles
- 2) Van Nuys Civic Center – 14410 Sylvan Street, Van Nuys
- 3) San Pedro Municipal Building - 638 South Beacon Street, San Pedro
- 4) West Los Angeles Municipal Building – 1828 Sawtelle Blvd, Los Angeles

C. SCOPE OF EMERGENCY ACTION PLAN

The emergency preparedness plan shall be in writing and shall cover those designated actions employers and employees must take to ensure employee safety from fire and other emergencies.

The Director is responsible to request the Building Management's Emergency Action Plan. Title 8 GISO Section §3220 Emergency Action Plan must:

- 1) Provide for six elements
 - a: Emergency escape procedures
 - b: Critical plant operations
 - c: Procedure to account for evacuated employees
 - d: Rescue and medical duties
 - e: Reporting fires and other emergencies
 - f: Emergency contacts

SAFETY MANUAL

- 2) Establish an alarm system that complies with Article 165
- 3) Plan to identify the types of evacuations used in emergencies
- 4) Contain training requirements

D. BCA EMERGENCY ACTION/FLOOR WARDEN PLAN

The Director shall designate staff to perform the following emergency preparedness functions.

- 1) BCA offices will request the Plan from the BM
- 2) Send representatives to any required meetings for training or coordination.
- 3) Post copies of the plan for all employees to review
- 4) Each office will develop and post a floor evacuation plan
- 5) Designate staff to act as Floor Wardens to assist in the safe evacuation of BCA staff and visitors
- 6) Provide for evacuation of employees with disabilities

E. CONSTRUCTION OFFICES

- 1) All construction offices are owned and managed by the contractor/client.
- 2) The contractor/client must have a specific emergency action plan on file and shall provide all BCA staff with training either in a classroom or by memorandum on the procedures for any emergency.
- 3) Supervisors are responsible to ensure that the contractor/client has an Emergency Action plan on file.

SAFETY MANUAL

15.0 WORKPLACE VIOLENCE POLICY

A. GENERAL INFORMATION

On September 20, 2023, Governor Gavin Newsom signed Senate Bill No. 553 (“SB 553”) into law, which requires covered California employers to take steps to prevent and respond to workplace violence. By July 1, 2024, nearly all California employers are required to design, implement, and maintain a workplace violence prevention plan (“WVPP”). In addition, the new law requires employers to maintain a violent incident log, as well as provide yearly training to employees on how to identify and avoid workplace violence.

BCA Executive management believes that it is the role of the City of Los Angeles Personnel Department to develop and administer the WVPP. BCA will comply with the City’s WVPP. Until that policy is promulgated BCA will follow the existing Workplace Violence Policy & Guidelines (<http://per.ci.la.ca.us/www/eco/violence.htm>). All employees are to review the policy in its entirety. Supervisors are required to participate in an online mandatory Workplace Violence training. Hector Chavez, Sr Pers Analyst I is the BCA Workplace Violence coordinator and can be reached at 213-847-2702.

If any employee believes that they are a victim to Workplace Violence; Threats, threatening behavior, or acts of violence, they should fill out the BCA Workplace Violence Incident Report [See Attached & Located on the BCA Safety Webpage as a fillable PDF] and give a copy to their supervisor, their Chief and the BCA Workplace Violence Coordinator.

CITY OF LOS ANGELES WORKPLACE VIOLENCE POLICY (Paraphrased)

- The City is committed to maintaining a workplace that is free from violence or threats of violence.
- Threats, threatening behavior, or acts of violence against an employee, a customer, a visitor, or any other individual cannot and will not be tolerated.
- All reports of workplace violence will be taken seriously and will be investigated promptly and thoroughly.

SAFETY MANUAL

- Any form of violence or threat of violence - whether actual or reasonably perceived - involving a City employee or occurring in the workplace must be reported to a supervisor, manager, or the department's personnel office.
- If management determines that an employee has engaged in workplace violence, appropriate action must be taken, which may include discipline up to and including discharge.
- Any violent behavior committed by an employee outside of the workplace which arises out of a contact made at the workplace may also result in disciplinary action up to and including discharge.
- Where the violent behavior occurs at the workplace, whether it is committed by a City employee or by an individual who is not a City employee, the City will contact the appropriate law enforcement agency, if necessary.
- Additionally, in all cases where violent behavior or a credible threat of violent behavior is directed at a City employee, the City will take appropriate legal action and/or other steps necessary to help protect the employee and/or the employee's family members

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

16.0 SAFETY RULES AND CODE OF SAFE PRACTICES

A. GENERAL INFORMATION

Bureau of Contract Administration has both field and office staff. Field staff are generally involved in the inspection of Public works projects that may include the construction of sewers, storm drains, street improvement, public buildings, bridges and airport improvements. Inspection work generally involves working in close proximity to construction equipment, vehicular traffic, excavations, fabrication and other hazards. Inspector's personal vehicle are assigned as a City Mileage Vehicle and used in their daily assignments. Office staff are generally working in a large office at a workstation. Some office staff go to construction worksites to interview workers or meet contractors. Below are general rules and safe practices that apply to all employees.

B. SAFETY RULES FOR ALL EMPLOYEES

It is the responsibility of each individual on the job, including the inspector, to follow safe practice rules, render every possible aid to safe operations, and report all unsafe conditions or practices to the proper authority. The contractor's supervisory force should insist on employees observing and obeying every rule, regulation, and order as is necessary for the safe conduct of the work, and should take such action as is necessary to obtain observance.

The following are the employee responsibilities as prescribed in the California Labor Code, Division 5, Part 1, Chapter 3: Section 6406. Prohibited Acts

No person shall do any of the following:

- 1) Remove, displace, damage, destroy or carry off any safety device, safeguard, notice, or warning, furnished for use in any employment or place of employment.
- 2) Interfere in any way with the use thereof (the above safety devices) by any other employee.
- 3) Interfere with the use of any method or process adopted for the protection of any employee, including himself, in such employment, or place of employment.
- 4) Fail or neglect to do every other thing reasonably necessary to protect the life, safety, and health of employees.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

C. CODE OF SAFE PRACTICES FOR ALL EMPLOYEES

Safe practice rules are needed so that every employee can work as a part of the team, without fear of injury. The following Code of Safe Practices shall be complied with in order to prevent accidents and enforce safety rules *unless specific or more stringent policies govern the activity.*

- 1) Be in good physical condition before starting work, with your alertness and ability unaffected by illness or lack of rest, which causes fatigue and decreased efficiency. Problems can lead to accidents if your mind isn't on the job.
- 2) If you become ill when at work report to your supervisor or dispatcher for replacement so that you may receive proper medical attention.
- 3) Wear the right work clothes and shoes for the job. Your clothing should allow freedom of action and should not hang loosely. Wear durable, hard-soled shoes that fit well; tennis shoes and other inappropriate footwear, shoes with thinly or badly worn soles, or loosely fitting shoes are dangerous and shall not be worn. ANSI approved vests shall be worn when high visibility of personnel is advantageous.
- 4) Wear your City-issued high impact plastic hard hat with City decal on all construction jobs that are posted or otherwise designated as "hard hat areas." Check periodically for damage to the shell and suspension system.
- 5) Wear safety goggles when near welding operations or near hazardous materials which may impair your vision.
- 6) Be sure the equipment you are using or working near is in safe operating condition, grounded, properly operated and contributes to a safe working atmosphere.
- 7) Keep as clean as possible to prevent skin trouble when working with chemicals, oils, paints, or cleaners. Wash thoroughly after handling anything that might be poisonous or injurious, especially before eating. Report and treat all injuries, no matter how small they may seem. Prevent serious infection by receiving first-aid treatment.
- 8) Never act impulsively. Think about what you are going to do before you do it. Consider the hazards and take adequate precautions. Correct any unsafe conditions you can; report all others to your supervisor. Always expect the unexpected.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 9) Don't attempt to handle more than you can control. Do your work the right way and safe way; taking short cuts is often dangerous. Work at a speed which is known to be safe, watch where you are walking, take one step at a time, and never run.
- 10) Use handrails on stairs or on elevated places. Never jump from platforms, scaffolds, loading docks, or other elevations. Make safety your sixth sense.
- 11) Your job in fire prevention is to keep things that start fires away from things that burn. If you see a fire hazard see that it is corrected. Observe no smoking regulations where posted. You should become familiar with the operation and use of the various types of fire extinguishers provided and their locations. Every near accident is a warning.
- 12) Be your brother's keeper. Consider what you do in terms of the hazards it may create for others. Never leave a hazard for the next person who may come by. Every three seconds someone is injured.
- 13) Obey all traffic regulations while driving vehicles both on and off the job. Be courteous; give the other people a break. The right of way doesn't give you the right to have an accident. When not driving, be a safe pedestrian. Stay alert and don't jaywalk.
- 14) Don't enter maintenance holes, underground vaults, chambers, tanks, silos, or other similar places that receive little ventilation, unless it has been determined that it is safe to enter.
- 15) Plan your work ahead to prevent injuries and illnesses, and take part in regular injury and illness prevention programs. Preplanning of safety measures to meet known construction activity hazards, will prevent accidents and aid efficient and economical construction.
- 16) When working at a workstation make sure that you are ergonomically comfortable. Take stretch and eye breaks every hour.
- 17) Maintain good housekeeping principles. Close file cabinet drawers. Keep aisles clear.

D. CONSTRUCTION SITE SAFETY RULES

- 1) Although legally the matter of safety at the job site is the contractor's responsibility, the inspector may well encourage safe working practices by pointing out possible sources of danger.
- 2) Each supervisor will request and review the construction site IIPP.
- 3) The inspector shall be well informed and should not hesitate to promote the safety of the job and the public.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 4) If, in the informed opinion of the inspector, the precautions taken by the contractor are found to be insufficient or inadequate in providing job or public safety at any time during the life of the contract, he or she should inform the contractor to take further necessary precautions.
- 5) When the contractor has failed to take action on safety violations, after being advised of the unsafe condition, it is the duty of the inspector to notify their supervisor. If the contractor refuses or completely disregards the inspector's non-compliance issuance then it may be necessary to report the unsafe condition to Cal-OSHA.

E. OFFICE OF WAGE STANDARDS – OFFICE CONTRACT COMPLIANCE SAFETY RULES – SITE/BUSINESS ESTABLISHMENT VISITS

- 1) **Stay in touch.** Set up a call-in procedure with your office.
- 2) **Keep valuables out of sight.** Carry as little as possible. It's best to put valuables in the trunk before you leave on an appointment so as not to advertise what you have and where you put it.
- 3) **Know exactly where you're going.** If you've never been in a certain location, drive around the area first. This helps you familiarize yourself with alternative routes if you need them for safety. It also gives you advance knowledge of areas that could pose more risk than others.
- 4) **Keep a buffer zone.** It's best to leave at least a car length in between you and the car in front of you whenever you stop. This provides you with some space to maneuver in if you're in danger.
- 5) **Be strategic.** Drive with your doors locked. Park in a well-lit, visible area. It's best to back your car in for leaving in a quick and less-obstructed way.
- 6) **Dress professionally and functionally.** Make sure your clothes and shoes provide you with ease of movement.
- 7) **Set expectations.** Discuss mandated reporting requirements and program expectations during your initial contact with your client(s).

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 8) **Establish parameters.** Make it clear that you have a schedule to keep and are expected elsewhere later. This puts in some parameters ahead of time in case you have to leave for any reason.
- 9) **Be aware of others.** Be mindful of others in the establishment/site for confidentiality and safety reasons.
- 10) **Ask about pets/guard dogs.** It's best to call ahead of time to see if there are any pets. Do you have allergies? Is the person's pet friendly or not?
- 11) **Be cautious of belligerent behavior.** If any person becomes threatening or belligerent, remain calm but explain that you will need to terminate the meeting for a later time. Once you have left document any and all belligerent behavior and report it to your supervisor.
- 12) **Workplace violence.** Follow the City's Workplace policies. If necessary call 9-1-1.
- 13) **Be aware of signs of intoxication.** If someone is impaired such as with drugs or alcohol, leave. You can always reschedule.
- 14) **Try to keep a clear path to the door.** Know your means of exit. You may leave from a way different than the way you came in.
- 15) **Guard your privacy.** Do not give out personal information. The only contact information that may be issued should be City business cards, websites or brochures.
- 16) **Be mindful of your presence on social media.** Monitor your privacy settings on sites like Facebook. Also avoid sharing things that could provide others with information about you, your family, where you live, and so on.
- 17) **Listen to your internal warning signals.** Leave if you don't feel safe.

SAFETY MANUAL

17.0 HEARING CONSERVATION PROGRAM

A. GENERAL INFORMATION

The City of Los Angeles, Bureau of Contract Administration (BCA) complies with Title 8, Group 15, Article 105, Sections 5095-5099 of the California Code of Regulations (CCR), which establishes acceptable limits for the amount and duration of noise to which employees can be exposed. The risks of damage caused by noise exposure are based on three primary factors.

1. Sound levels – (Appendix A)

- a. Refers to a report by School of Public Health and Community Medicine, University of Washington. Construction Industry Noise Exposures - Construction Workers reports on the recorded noise (dBA) for the Ten loudest tasks (Table 2) and Ten loudest tools (Table 3) of the construction industry. One additional table (Table 4) is included that shows percent of work shifts above WISHA¹ 8-hour standard.
- b. These tables will be used with considerations for duration and distance to establish the BCA Hearing Protection model.

2. Duration – (Appendix B)

- a. Title 8 – GISO Article 105. Control of Noise Exposure §5096. Exposure Limits for Noise. Table N-1 establishes Permissible Noise Exposure time limits based on Sound Level (dBA).

3. Distance – (Appendix C)

- a. The sound intensity from a point source of sound will obey the inverse square law if there are no reflections or reverberation. A plot of this intensity drop shows that it drops off rapidly. The sound level will decrease by 6 dB every time the source to the listener's distance is doubled.

¹ WISHA – Washington State Industrial Safety & Health Administration

SAFETY MANUAL

B. BCA HEARING CONSERVATION PROGRAM (HCP)

The BCA HCP is a conservative approach to ensuring employee hearing safety and health. Based on the three primary factors (Sound Levels – Duration – Distance) the following rules are mandated.

1. New employees, including part-time, temporary and contract, shall have baseline hearing tests performed by City Medical Services.
2. All employees will be issued NRR hearing attenuators to reduce sound levels to within the levels of the Appendix B: Table N-1. This PPE will be provided at no cost to the employee.
3. New employees will be initially trained in proper use of the BCA issued hearing attenuators.
4. All employees will have refresher training for Hearing Attenuation – Hearing Safety during the regularly scheduled BCA Tailgate Safety meeting (GISO Article 3, General §1509 (e).
5. Employees are responsible for the proper fit and care of hearing protection and that BCA shall ensure proper initial fitting and training and supervise the correct use of all hearing protectors.
6. BCA will also replace old or worn-out hearing protection as necessary.
7. BCA supervisors and employees shall have regular discussions to determine what types of hearing attenuation is required for the assigned work. Inspectors shall follow the direction given or face disciplinary actions.

C. **HEARING ATTENUATION USE - (Inspecting work near any power-actuated equipment)**

1. Category 1: General Hearing Attenuation Policy
 - a. Referring to Appendix A (Tables 2, 3, 4) and Appendix C all inspectors may inspect without hearing attenuation PPE provided they are:
 - i. Standing no closer than 20 feet from the construction activity
 - ii. Not exceeding continuous observation for longer than 1 hour or,
 - iii. Exceeding a minimum exceeding 4 hours within the 8 hour day.
2. Category 2: Mandatory Hearing Attenuation Use Policy
 - a. Referring to Appendix A (Tables 2, 3, 4) and Appendix C all inspectors shall be required to use hearing attenuation PPE if;

SAFETY MANUAL

- i. Inspection requires continuous observation that exceeds 1 hour or,
 - ii. Exceeds more than 4 hours within the 8 hour day.
 - iii. All pile driving activities require mandatory continuous use of issued hearing attenuation for any duration that the inspector is within 100 feet from the operation.
- b. At any location posted with a sign stating “HEARING PROTECTION REQUIRED BEYOND THIS POINT” or similar statement.

D. TRAINING PROGRAM – TAILGATE SAFETY MEETING

- 1) All BCA employees will be trained on Hearing Protection during the Tailgate safety meeting. Types of protection, determination of noisy environments and employee rights will be discussed. Employees that are part of the Hearing Conservation program will all be trained during their initial Baseline Audiogram and Annual Audiogram tests. Information provided in the training program will be updated to be consistent with changes in protective equipment and work processes. Some of the information made available through the training includes:
 - a: The effects of noise on hearing
 - b: The purpose and advantages of hearing protection, attenuation of various types of attenuation methods and equipment, and instructions on selecting, fitting, use, and care
 - c: The purpose of audiometric testing, and an explanation of the test procedures
- 2) Upon request, BCA will provide employees with any informational materials related to the BCA hearing conservation program

E. ADDING-DELETING EMPLOYEES IN THE HCP

- 1) BCA management reserves the right of assigning staff to projects that may have noise levels near or above the action level. If that assignment is in a location that has levels of high noise the direct supervisor shall inform the employee that they will be enrolled in the HCP. The supervisor will inform the Safety Coordinator of the assignment and request that the employee be added to the Occupational Health Department for inclusion to the program. (See attached ADD-DELETE form.

SAFETY MANUAL

- 2) Once an assignment is completed the employee or supervisor may request that the employee be removed from the HCP. This would require a final hearing exam to be performed. If the employee is assigned to a facility or inspection at a noisy facility but the assigned duties are not in the proximity of the noisy areas then the supervisor is not required to add the employee to the hearing program. The employee should be informed of this decision and given the opportunity to be added to the HCP.

F. EMPLOYEE RESPONSIBILITY

- 1) Employees shall maintain their assigned hearing protection PPE in clean and operable condition.
- 2) The inspector shall communicate with their supervisor any time that they have a concern about hearing attenuation PPE use.
- 3) Inspectors shall not perform their duties without hearing attenuation PPE if the assignment requires its use.

G. RECORDKEEPING

- 1) BCA and RMSD will maintain accurate records of all employee exposure measurements required by CCR Section 5097(b). The information regarding audiograms includes the following:
 - a: Name and classification of the employee
 - b: Date of the audiogram
 - c: The examiner's name
 - d: Date of the last acoustic or exhaustive calibration of the audiometer
 - e: The employee's most recent noise exposure assessment
- 2) Audiometric test records will be retained for the duration of the affected employee's employment. All records on file will be provided upon request to the employee, former employee, representatives designated by the employee, and any authorized representative of the Chief of the Division of CAL/OSHA

SAFETY MANUAL

APPENDIX A: SOUND LEVELS

In this brochure two tables were provided that compared the highest task and tool exposures for construction workers noise levels.

Table 2: Ten loudest tasks

| Tasks (Trade) | Average noise level (dBA) | Maximum noise level (dBA) |
|---|---------------------------|---------------------------|
| Installing Trench Conduit (<i>Electricians</i>) | 95.8 | 118.6 |
| Operating Work Vehicle (<i>Bricklayers</i>) | 98.0 | 116.7 |
| Operating Manlift (<i>Operating Engineers</i>) | 98.1 | 117.6 |
| Welding, Burning (<i>Ironworkers</i>) | 98.4 | 119.7 |
| Operating Scraper (<i>Oper. Engineers</i>) | 99.1 | 108.6 |
| Demolition (<i>Laborers</i>) | 99.3 | 112.1 |
| Laying Metal Deck (<i>Ironworkers</i>) | 99.6 | 119.9 |
| Grinding (<i>Masonry Trades</i>) | 99.7 | 118.6 |
| Operating Bulldozer (<i>Oper. Engineers</i>) | 100.2 | 112.5 |
| Chipping Concrete (<i>Laborers</i>) | 102.9 | 120.3 |

Table 3: Ten loudest tools

| Tools | Average noise level (dBA) | Maximum noise level (dBA) |
|----------------------------|---------------------------|---------------------------|
| Welding, Cutting Equipment | 94.9 | 122.8 |
| Other Hand Power Tool | 95.4 | 118.3 |
| Hand Power Saw | 97.2 | 114.0 |
| Screw Gun, Drill Motor | 97.7 | 123.7 |
| Rotomhammer | 97.8 | 113.5 |
| Chopsaw | 98.4 | 117.7 |
| Rattle Gun | 98.4 | 131.1 |
| Stationary Power Tool | 101.8 | 119.8 |
| Powder Actuated Tool | 103.0 | 112.8 |
| Chipping Gun | 103.0 | 119.2 |

Equipment and daily activities at construction job sites can expose workers to high levels of noise. Sound levels on the chart below are listed in decibels (dBA) – the larger the number, the higher the volume or decibel level. How loud the noise is (volume), how long the noise lasts, and how close you are to the noise are all important in determining the hazard.

Table 4: Percent of work shifts above WISHA 8-hour standard

| Trade | % of 8-hour work shifts > 85 dBA |
|---------------------|----------------------------------|
| Sheet Metal Worker | 11% |
| Insulation Worker | 18% |
| Tilesetter | 20% |
| Electrician | 20% |
| Bricklayer | 26% |
| Masonry Restoration | 37% |
| Carpenter | 40% |
| Ironworker | 40% |
| Laborer | 44% |
| Cement Mason | 46% |
| Operating Engineer | 46% |
| ► All Trades | 34% |

SAFETY MANUAL

APPENDIX B: DURATION

§5096. Exposure Limits for Noise.

(a) Protection against the effects of noise exposure shall be provided when the sound levels exceed those shown in Table N-1 of this section when measured on the A-scale of a standard sound level meter at slow response.

(b) When employees are subjected to sound levels exceeding those listed in Table N-1 of this section, feasible administrative or engineering controls shall be utilized. If such controls fail to reduce sound levels within the levels of the table, personal protective equipment shall be provided and used to reduce sound levels within the levels of the table.

Table N-1 Permissible Noise Exposure¹

| <i>Permitted Duration</i> | | | <i>Permitted Duration</i> | | |
|-----------------------------|-----------------------------|--------------|-----------------------------|-----------------------------|--------------|
| <i>Sound Level</i> (dBA) | <i>Per Workday</i> | | <i>Sound Level</i> (dBA) | <i>per Workday</i> | |
| | <i>(hours- minutes)</i> | <i>hours</i> | | <i>(hours- minutes)</i> | <i>hours</i> |
| 90..... | 8-0..... | 8.00 | 103..... | 1-19.... | 1.32 |
| 91..... | 6-58..... | 6.96 | 104..... | 1-9.... | 1.15 |
| 92..... | 6-4..... | 6.06 | 105..... | 1-0.... | 1.00 |
| 93..... | 5-17..... | 5.28 | 106..... | 0-52.... | 0.86 |
| 94..... | 4-36..... | 4.60 | 107..... | 0-46.... | 0.76 |
| 95..... | 4-0..... | 4.00 | 108..... | 0-40.... | 0.66 |
| 96..... | 3-29..... | 3.48 | 109..... | 0-34.... | 0.56 |
| 97..... | 3-2..... | 3.03 | 110..... | 0-30.... | 0.50 |
| 98..... | 2-38..... | 2.63 | 111..... | 0-26.... | 0.43 |
| 99..... | 2-18..... | 2.30 | 112..... | 0-23.... | 0.38 |
| 100..... | 2-0..... | 2.00 | 113..... | 0-20.... | 0.33 |
| 101..... | 1-44..... | 1.73 | 114..... | 0-17.... | 0.28 |
| 102..... | 1-31..... | 1.52 | 115..... | 0-15.... | 0.25 |

¹ When the daily noise exposure is composed of two or more periods of noise exposure of different levels, their combined effect should be considered, rather than the individual effect of each. If the sum of the following fractions: $C_1/T_1 + C_2/T_2 \dots C_n/T_n$ exceeds unity, then, the mixed exposure should be considered to exceed the limit value. C_n indicates the total time of exposure at a specified noise level, and T_n indicates the total time of exposure permitted at that level.

(c) If the variations in noise level involve maxima at intervals of 1 second or less, the noise is to be considered continuous.

(d) Exposure to impulsive or impact noise should not exceed 140 dB peak sound pressure level.

SAFETY MANUAL

APPENDIX C: DISTANCE

The sound pressure p changes with $1/r$ of the distance. So, if we double the distance, we reduce the sound pressure by a ratio of 2 and the sound intensity by a ratio of 4. In other words, we reduce the sound level by 6 dBA. If we increase r by a ratio of 10, we decrease the level by 20 dBA.

The sound intensity level and the sound pressure levels in dB have the same value, but the size of sound pressure and the size of acoustic intensity is different, because $I \sim p^2$.

Noise energy dissipates in the air by 6 decibels as the distance doubles. The table below gives an illustration.

| Distance from noise source (meters) | Noise level at that distance dB(A) |
|-------------------------------------|------------------------------------|
| 10 | 96 |
| 20 | 90 |
| 40 | 84 |
| 80 | 78 |
| 160 | 72 |
| 320 | 66 |
| 640 | 60 |

Inverse Square Law, Sound

The [sound intensity](#) from a point source of sound will obey the [inverse square law](#) if there are no reflections or [reverberation](#). A [plot](#) of this intensity drop shows that it drops off rapidly.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

18.0 BCA FIRST AID/CPR TRAINING

A. GENERAL INFORMATION

The City of Los Angeles, Bureau of Contract Administration (BCA) complies with Subchapter 7 General Industry Safety Orders Group 2 Safe Practices and Personal Protection Article 10 Personal Safety Devices and Safeguards §3400 Medical Services and First Aid.

- (a) Employer shall ensure the ready availability of medical personnel for advice and consultation on matters of industrial health or injury.
- (b) In the absence of an infirmary, clinic, or hospital, in near proximity to the workplace, which is used for the treatment of all injured employees, a person or persons shall be adequately trained to render first aid. Training shall be equal to that of the American Red Cross or the Mine Safety and Health Administration.
- (c) There shall be adequate first-aid materials, approved by the consulting physician, readily available for employees on every job. Such materials shall be kept in a sanitary and usable condition. A frequent inspection shall be made of all first-aid materials, which shall be replenished as necessary.

And;

Subchapter 7. General Industry Safety Orders Group 16 Control of Hazardous Substances Article 108 Confined Spaces §5158 Other Confined Space Operations (e) Confined Space Operations (2) Precautions for Emergencies Involving Work in Confined Spaces.

- (A) At least one person trained in first aid and cardiopulmonary resuscitation (CPR) shall be immediately available whenever the use of respiratory protective equipment is required subsection (e)(1). Standards for CPR training shall follow the principles of the American Heart Association or the American Red Cross.

B. FIRST AID – CPR EXCLUSION

- 1) It has been determined that all work performed by BCA Inspectors meets the OSHA Standard Interpretation 2007-01-16 OSHA requirement “near proximity to the workplace” and therefore per this section BCA Inspectors are not required to be trained to render first aid.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- 2) It has also been determined that since BCA inspectors are not permitted to enter any Permit Required Confined Space that BCA Inspectors are not required to be trained in cardiopulmonary resuscitation (CPR).

C. BCA POLICY – TRAINING REQUIREMENTS

Even though BCA staff are assigned to workplaces that have an infirmary, clinic, or hospital, in near proximity, and employees are prohibited from entering Permit Required Confined spaces (and thus trained as Rescuers), BCA management recognizes the importance of having employees trained in Basic First Aid and CPR. BCA also recognizes that since all staff are designated as Disaster Service Workers that all staff will be trained in Basic First Aid and CPR.

To accomplish this BCA has prepared a First Aid/CPR training course that provides acceptable responder training for the work assignments. This training is equal to that of the American Red Cross or the Mine Safety and Health Administration. Even though staff are trained to “**render first aid**” and are issued “**adequate first-aid materials**”, there is nothing, other than Good Samaritan rules, that compel an employee to render first aid.

The three module Basic First Aid/CPR training will be conducted during the course of three regularly scheduled Tailgate Safety Meetings. A certificate of completion will be awarded for each employee that attends each module and achieves a passing score of 70% on the final exam.

The First Aid/CPR training course was developed by BCA Training Sections, BCA Safety Engineer and in collaboration with Mr. Dru Ross & Mr. Alan Tan of City of Los Angeles Occupational Safety and Health and Mr. Steven Kalb of Medical Services.

SAFETY MANUAL

19.0 HEAT ILLNESS PROGRAM

A. GENERAL INFORMATION

Bureau of Contract Administration's (BCA) core activity involves the inspection of Public Works construction. Inspection duties are generally not a physical process "*engaged in construction work*" but a peripheral observant activity that is done to ensure work is completed per plans and specifications. Based on the information below, BCA executive management has determined that BCA inspectors are not subject to the following provisions of §3395. Heat Illness Prevention

1. High heat procedures referenced in subsection (e).
2. Acclimatization methods and procedures referenced in §3395. Heat Illness Prevention subsection (g).

An inspector's workday is comprised of three primary activities:

1. Driving to and from offices, meeting and project sites
2. Project inspection per plans and specifications at both outside and inside locations
 - a. As-needed per cash contracts/permit work
 - b. Continuous inspection where deputy (special) inspection is required
3. Completing project paperwork/attending meetings

Most project inspection assignments require the construction inspector to be "outdoors"; although a lesser, but significant amount of time is in city owned facilities (i.e. treatment plants, airport terminals/buildings, or other) as well as vendor facilities. The majority of assigned inspection work is "as needed" and either requested by the contractor or contract documents.

BCA's Heat Illness program complies with Cal/OSHA §3395. Heat Illness Prevention. It is the opinion of BCA management that although BCA inspectors are subject to §3395 (a) (1) & (2) (B) Construction, the activities of the inspector are clearly defined apart from the Federal OSHA Standard Interpretation¹ dated February 1, 1996 defines construction work as:

Section 29 CFR 1910.12(b) defines construction work as "construction, alteration, and/or repair including painting, and decorating." Further, construction work is defined as work not limited to new construction, which includes the repair of existing facilities, and the replacement of structures and their components.

In order for work to be construction work the employer need not be a construction company. The construction industry standard applies "to every employment and place of employment of every employee engaged in construction work. The terms "construction", "completion" or "repair" mean all types of work done on a particular building or work site.

¹ https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=INTERPRETATIONS&p_id=22059

SAFETY MANUAL

B. HEAT ILLNESS PREVENTION PLAN

1. Heat Illness Training
 - a. Every BCA inspector shall attend an annual Tailgate Topic Review on Heat Illness and have their attendance recorded as completing a topic quiz.
 - b. This training topic is reserved for the beginning of the high heat season.
 - c. This training will instruct each inspector on the signs or symptoms of heat illness and emergency response.
 - d. The training will instruct each inspector on access to shade and water.
 - e. Heat related PPE is supplied at no cost to all BCA employees. This PPE includes:
 - i. Hard hat neck shades/Hard hat sunshield
 - ii. Sun lotion
 - iii. 1-gallon Igloo water jug
2. Procedures for the Provision of Water and Access to Shade
 - a. Field inspectors
 - i. Are required to use their personal vehicle as a “City of Los Angeles Mileage Vehicle.” This is a condition of work.
 - ii. Inspectors use their vehicles as a source of shade and for accessing water at any City facility or job trailer.
 - b. Plant/Materials Control Inspectors
 - i. All city owned plants and vendor facilities have unlimited drinking water.
 - ii. All city owned plants and vendor facilities comply with the Cal/OSHA shade requirements.
3. Emergency Response
 - a. BCA inspectors are generally working on individual assignments. Some inspectors will work in smaller groups of two or three inspectors at a large project or facility but their daily assignments may be at very different locations or inside buildings.
 - b. Although BCA inspection assignments are done to ensure the owner (City) receives the correct product, the project site is controlled by the contractor whom the inspector receives permission to enter. The construction site is controlled by the contractor’s IIPP.
 - c. BCA inspectors’ duties at project sites are done in conjunction with the contractor’s operation and, as such, there are contractor employees that are assisting with the inspectors’ duties or in the close proximity.
 - d. All BCA inspectors are issued a City of Los Angeles cell phone and instructed in its use to contact emergency response referenced in §3395. Heat Illness Prevention subsection (f).

SAFETY MANUAL

20.0 - RESPIRABLE CRYSTALLINE SILICA WRITTEN PLAN (WP)

A. GENERAL INFORMATION

§ 1532.3. Occupational Exposures to Respirable Crystalline Silica.

(a) Scope and application. This section applies to all occupational exposures to respirable crystalline silica in construction work, except where employee exposure will remain below 25 micrograms per cubic meter of air (25 µg/m³) as an 8-hour time-weighted average (TWA) under any foreseeable conditions.

(c) Specified exposure control methods. (1) For each employee engaged in a task identified on Table 1, the employer shall fully and properly implement the engineering controls, work practices, and respiratory protection specified for the task on Table 1, unless the employer assesses and limits the exposure of the employee to respirable crystalline silica in accordance with subsection (d).

Table 1 - Equipment/tasks performed

- (i) Stationary masonry saws
- (ii) Handheld power saws (any blade diameter)
- (iii) Handheld power saws for cutting fiber-cement board (with blade diameter of 8 inches or less)
- (iv) Walk-behind saws
- (v) Drivable saws
- (vi) Rig-mounted core saws or drills
- (vii) Handheld and stand-mounted drills (including impact and rotary hammer drills)
- (viii) Dowel drilling rigs for concrete
- (ix) Vehicle-mounted drilling rigs for rock and concrete
- (x) Jackhammers and handheld powered chipping tools
- (xi) Handheld grinders for mortar removal (i.e., tuckpointing)
- (xii) Handheld grinders for uses other than mortar removal
- (xiii) Walk-behind milling machines and floor grinders
- (xiv) Small drivable milling machines (less than half-lane)
- (xv) Large drivable milling machines (half-lane and larger)
- (xvi) Crushing machines
 - (xvii) Heavy equipment and utility vehicles used to abrade or fracture silica-containing materials (e.g., hoe-ramming, rock ripping) or used during demolition activities involving silica-containing materials
- (xviii) Heavy equipment and utility vehicles for tasks such as grading and excavating but not including: Demolishing, abrading, or fracturing silica-containing materials

(g) Written exposure control plan.

(1) The employer shall establish and implement a written exposure control plan that contains at least the following elements:

(A) A description of the tasks in the workplace that involve exposure to respirable crystalline silica;

WP Statement:

- **BCA employees are not engaged in performing any of the tasks listed in (c) Table 1.**

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

(B) A description of the engineering controls, work practices, and respiratory protection used to limit employee exposure to respirable crystalline silica for each task;

WP Statement:

- **When BCA employees are present during any of the activities in Table 1 they are required to verify that the contractor is complying with § 1532.3. Occupational Exposures to Respirable Crystalline Silica “Required Respiratory Protection”.**
- **Direct the contractor to provide protective barriers and signs to prevent others from entering an area that silica dust is present.**
- **BCA inspection duties do not require the inspector to stay within an exposure area. If inspection is required the inspector shall direct the contractor to stop the task prior to any inspection.**

(C) A description of the housekeeping measures used to limit employee exposure to respirable crystalline silica; and

WP Statement:

- **None**

(D) A description of the procedures used to restrict access to work areas, when necessary, to minimize the number of employees exposed to respirable crystalline silica and their level of exposure, including exposures generated by other employers or sole proprietors.

WP Statement:

- **See (B) above**

(2) The employer shall review and evaluate the effectiveness of the written exposure control plan at least annually and update it as necessary.

BCA Safety Committee Safety Committee will review/update each year

(3) The employer shall make the written exposure control plan readily available for examination and copying, upon request, to each employee covered by this section, their designated representatives, the Chief and the Director.

(4) The employer shall designate a competent person to make frequent and regular inspections of job sites, materials, and equipment to implement the written exposure control plan.

WP Statement:

- **BCA Safety Committee Safety Coordinator**
- **BCA Supervisors – Exec Mgmt, Chief, Principals**

Introduction

Workplace safety and health regulations in California require employers to take steps to protect workers from exposure to communicable diseases such as the Coronavirus Disease 2019 (COVID-19) pandemic. California Occupational Safety and Health Administration (Cal/OSHA) along with other federal, state and local regulatory agencies have issued guidance to help employers begin to reopen and return employees to physical workplaces. While doing so, there are numerous safety measures for employers to consider implementing to minimize the spread of COVID-19.

The new Cal/OSHA guidance identifies specific infection control measures that are mandatory for California employers to implement and include in their Injury and Illness Prevention Program (IIPP). This Appendix A to the IIPP is an Injury and Illness Prevention Plan which identifies the infection control measures that are in place to ensure the health and safety of City employees at the City of Los Angeles. This plan will be updated as regulations and public health guidance change. The plan focuses on strategies for workplace controls and flexibilities, identification and isolation of sick employees, basic hygiene, social distancing, face covering, and employee training that the City has implemented.

General Manager or Head of Department/Office (or designee) shall ensure that this COVID-19 Injury and Illness Prevention Plan is made available to all employees.

Note: All City departments have developed a departmental Reconstitution Plan which provides guidance and direction regarding ensuring the effective transition from continuing operations to a staged reopening approach during the COVID-19 pandemic. In conjunction with the State of California and the County of Los Angeles, the City adopted a staged approach to recovery.

Background

Coronavirus disease 2019, or COVID-19, is a novel communicable disease. On February 26, 2020, the Centers for Disease Control and Prevention (CDC) confirmed the first case of local person-to-person transmission of COVID-19 in the United States. On March 4, 2020, Mayor Garcetti declared a local emergency. On March 11, 2020, the World Health Organization (WHO) characterized COVID-19 as a pandemic and on the same day Mayor Garcetti issued a Safer-at-Home emergency order.

According to the CDC, COVID-19 has the following characteristics:

- COVID-19 may appear in as few as two days or as long as 14 days after exposure.
- Spread from person-to-person most likely occurs during close (within six feet) contact with an infected person; person-to-person spread mainly occurs via respiratory droplets produced when an infected person coughs or sneezes (similar to how influenza and other respiratory pathogens spread). These droplets are believed to enter the mouths and noses of people nearby, and can be inhaled into the nose and lungs.
- It can also be transmitted by touching surfaces or objects contaminated with the virus then touching mouth, nose, or possibly eyes.
- People are thought to be most contagious when they are most ill. Some spread might be possible before people show symptoms.

Protecting the health and safety of City employees and public throughout this pandemic is paramount.

To reduce the risk of spreading COVID-19 all employees must:

1. Stay home if sick.
2. Frequently wash hands with soap and water for at least 20 seconds. When soap and running water are unavailable, use an alcohol-based hand sanitizer. Always wash hands that are visibly soiled.
3. Avoid touching eyes, nose, or mouth with unwashed hands.
4. Wear a face mask that properly covers both the nose and mouth while in both indoor and outdoor spaces (for outdoors, where physical distancing of six feet is not feasible) unless medically exempt.
5. Maintain social or physical distancing of at least six feet from others as much as feasible in the workplace.
6. Practice good respiratory etiquette, including covering coughs and sneezes with the inside of elbow or upper arm or tissue; dispose of tissues in waste receptacles.
7. Avoid close contact with people who are sick.
8. Avoid shared workspaces (desks, offices, and cubicles) and work items (phones, computers, equipment, and other work tools) when possible.
9. Recognize personal risk factors. According to the CDC certain people, including older adults and those with underlying conditions such as heart or lung disease or diabetes, are at higher risk for developing more serious complications from COVID-19.
10. Follow any new signage or protocols that have been placed in the workplace (e.g. limitations on elevator occupancy, one way travel, designated entry and exit points).
11. Keep the immediate work area sanitized.
12. Wear any additional personal protective equipment, in addition to a face mask, that may be mandated by job task/assignment.

In addition to the Personnel and Uniform Workplace Safety Protocols, City Departments have the following **Health and Safety** protocols in place:

A. Telecommute

Consistent with departmental operational needs all City departments have established telecommuting guidelines for their employees. Department staff who fall into the vulnerable population categories (65 and older, those who are pregnant, and those with chronic health conditions) will continue to telecommute whenever possible and participate in meetings virtually. Safety arrangements will be made if any vulnerable employee chooses to work in the office.

B. Sick or Ill Employees

Employees exhibiting COVID-19 like symptoms are to stay home. Such symptoms may include frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, and recent loss of taste or smell.

Employees are encouraged to conduct a Daily Self Check screening prior to reporting to work. Signage are posted at the entrance(s) of all buildings as a reminder to employees. Employees who were recently exposed to COVID-19, or someone they live with has been recently diagnosed with COVID-19, are directed to stay home and contact their supervisor for further guidance.

Employees who are out ill with fever or acute respiratory symptoms should not return to work until both of the following occur: at least three full days pass with no fever (without the use of fever-reducing medication) and no acute respiratory illness symptoms; and at least ten days pass since the symptoms first appeared.

Employees should self-monitor for COVID-19 related symptoms, immediately report any symptoms to their supervisor or Personnel Division. If they become sick during the day, they will be sent home immediately. In the event sick employees are unable to leave immediately (e.g., while awaiting transportation from the workplace to their home or to a healthcare facility) they will be isolated from the rest of the employees.

Employees that return to work following an illness will promptly report any recurrence of COVID-19 related symptoms to their supervisor and/or Personnel Services Section (Human Resources).

More information about what to do if an employee feels sick or if an employee becomes ill is available on the Personnel Department COVID-19 webpage.

C. Sick Leave/Families First Coronavirus Response Act (FFCRA) Policies

Employees who are directed or ordered to go or stay home due to COVID-19 or COVID-19 symptoms should contact their Departmental Personnel Officer. Employees are encouraged to stay home if they are sick. The City has released a [memo](#) updating the leave policy in compliance with the FFCRA.

D. COVID-19 Exposure Reporting, Assessments, Contact Tracing, and Disinfection

General Manager or Head of Department/Office (or designee) shall ensure to report all positive COVID-19 cases to the Medical Services Division (MSD) of the Personnel Department immediately using [COVID-19 Case Referral Submission Form](#). MSD has been providing advice to the City departments regarding the cases of COVID-positive tests and exposures. After assessing each reported case, MSD makes recommendations regarding isolation, contact tracing, and provides advice regarding cleaning and disinfection.

Employees will be notified if they may have possibly been exposed to COVID-19 in the workplace in accordance with the confidentiality requirements of the Americans with Disabilities Act (ADA).

Upon confirmation of a positive COVID-19 test, the supervisor shall isolate the area where the sick employee was normally present and contact the department's administrative services group who will work with the Department Personnel Officer and MSD to determine sanitary measures. The affected areas, along with key common areas (such as bathrooms and lunch rooms) and frequently touched areas (such as main doors and elevator buttons) will be disinfected using products that are approved by the Environmental Protection Agency (EPA)-registered disinfectant and are also approved for emerging pathogens by the General Services Department (GSD) Custodial Services or contractor. Any COVID-19 cleaning and disinfection and notification will be conducted following the guidelines established under the [Personnel Department Guidelines Citywide Notification and Cleaning memo](#).

In addition, all recording and reporting of COVID-19 work-related fatalities, injuries and illnesses will be recorded and reported consistent with other occupational illnesses and in accordance with applicable Cal/OSHA regulations and departmental procedures. Cal/OSHA recording and reporting requirements for COVID-19 cases can be found on the following website: [Cal/OSHA Recording and Reporting Requirements for COVID-19 Cases](#).

E. Social or Physical Distancing

Social distancing, also called physical distancing, will be encouraged at all times, ensuring employees remain at least six feet apart as much as feasible from others in the workplace as work duties permit, while in common areas (e.g., lunch/ break rooms, copy area, storage, mail room, parking, etc.), and in vehicles. All employees and public entering City buildings/facilities will comply with the social or physical distancing protocols and appropriate signage will be posted at or near the entrance of the building as a reminder.

Note: This may not apply to any emergency medical services or law enforcement personnel from carrying out their lawful duties and/or during an emergency.

The following measures are in place to maintain social or physical distancing, but are not limited to:

1. Supervisors are instructed to work with employees to adjust work schedules to achieve maximum social/physical distancing by providing for staggering work shifts, rotation between being in the workplace and telecommuting (e.g., A and B shifts), etc. Overlapping shifts or rotations will be avoided, if possible.
2. The number of employees in the workplace must be minimized by evaluating departmental occupancy and capacity to maintain six feet of physical distancing between employee work or break areas, and six feet of physical distancing between visitors and employees.
3. When possible, work-related meetings and gatherings will be avoided and the use of videoconferencing or teleconferencing is encouraged. The Los Angeles County Department of Public Health (DPH), Order of the Health Officer, Protocols for Office Worksites, Appendix D, Section B, dated July 8, 2020, states the following: "If in-person meetings are essential, they are limited to 10 or fewer participants and all participants must wear cloth face coverings [masks] and are held in rooms large enough to maintain physical distancing."
4. To the extent possible, visitors to the workplace are handled by appointment only and are pre-registered in a visitor log that includes a visitor's name, phone number and email address. Visitors are instructed to come to their appointments alone.
5. Employees are encouraged to refrain from entering another employee's work area to search for items or borrow equipment.
6. Employees are discouraged from congregating in any area, but especially common areas or high traffic areas such as break rooms, restrooms/bathrooms, hallways and stairwells.
7. Employees are instructed to discontinue handshakes, hugs, and fist bumps.
8. Employees will maintain at least six feet distance from constituents and from each other, except employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary. Constituents may be refused service if they are exhibiting COVID-19 like symptoms or not wearing a facial covering.
9. Six-foot visual cues (e.g., floor markings, colored tape, etc.) are used to keep employees and the visitors/public safe and as needed both inside the workplace and outside its public entrances. Signage shall be posted directing employees and visitors to use the markings to maintain distance.
10. Elevators are limited to 1 to 4 occupants per ride depending on the size of the elevators. Employees are encouraged to stand in diagonal corners maintaining social distancing protocol as much as feasible. Signs will be posted near elevators explaining any new procedures for queuing, occupancy limitations in elevator cabs, etc. To ease elevator traffic and wait times, employees may consider using the stairwells.

11. Workspaces, cubicles, public counters, break rooms, etc. are rearranged/modified to ensure six feet separation between employees and/or visitors as much as feasible. Where the six-feet social or physical distancing is not feasible, space reconfigurations and modifications such as installation of physical barriers/shields, posting of signs indicating directional one way foot traffic in hallways/corridors (where the width restricts movement), removal of furniture within workplaces, etc., will be implemented.
12. Employees are encouraged to use transportation options that minimize close contact with others (e.g., walking or biking, driving, or riding in a car alone or with household members only) including driving to worksites or to parking areas alone (avoid carpooling, where feasible).
13. If carpooling cannot be avoided, limit the number of employees in a City vehicle to two (the driver and one passenger). The passenger should sit in the back seat opposite the driver of the vehicle. A face mask should be worn at all times by both individuals and hands should be washed immediately after the trip.
14. If there is only one row of seating in the cab of a work truck, passengers should instead drive their own vehicles to the work location.
15. Improve the ventilation in the vehicle, if possible, bring fresh air in from outside by lowering windows and/or setting the air ventilation/air conditioning on non-recirculation mode (avoid using recirculated air).
16. All non-essential, out-of-state employee business travel is minimized. Employees and supervisors must check and review the CDC's Traveler's Health Notices prior to an approved travel.

F. Personal Protective Equipment (PPE)

OSHA defines Personal Protective Equipment (PPE) as equipment worn to minimize exposure to hazards that cause serious workplace injuries and illnesses. PPE may include items such as gloves, safety glasses and shoes, earplugs or muffs, hard hats, respirators, or coveralls, vests and full body suits. In accordance with OSHA and CDC guidance on use of PPE, supervisors will conduct a hazard assessment to determine if PPE is needed to protect employees from a workplace hazard including COVID-19. General Manager or Head of Department/Office (or designee) shall ensure that PPE, face masks and safety supplies to their employees, are provided at a level appropriate to job duties.

G. Face Masks/Coverings

Constituents and visitors are also required to wear face coverings any time they are in any of the City facilities/buildings. Signage are posted accordingly.

All employees are required to wear face mask that properly covers both the nose and mouth while in both indoor and outdoor spaces (for outdoors, where physical distancing of six feet is not feasible) unless:

1. Medically exempt
2. Alone in a private office or a walled cubicle
3. Driving alone

A face mask must be worn particularly when outside personal workspaces such as in:

1. Break room/lobby
2. Hallways/aisles
3. Restrooms
4. Copier room

5. Servicing at the public counter
6. Elevators/stairways
7. Parking facilities
8. Waiting for or riding on public transportation or paratransit or while in a taxi, or ride-sharing vehicle

Note 1: For the conservation of PPE, CDC recommends that the general public/employees not use surgical masks or N-95 respirators, so that these critical supplies are available to health care workers and first responders.

Note 2: Reusable cloth face masks and disposable non-medical masks are not PPE, but combined with physical distancing of at least six feet, they may help prevent infected persons without symptoms from unknowingly spreading COVID-19.

Note 3: Employees who are exempted from wearing a face mask due to a medical condition involving regular contact with others should wear a non-restrictive alternative, such as a face shield.

H. Personal Hygiene

Employees shall have access to soap and running water to wash their hands frequently and after touching any surface or tool suspected of being contaminated, before and after eating or using the restroom, before and after donning and doffing any PPE and/or face mask, and before touching their face.

Supervisors must remind personnel that they can reduce the risk of spreading COVID-19 by washing their hands often with soap and water and properly for at least 20 seconds. Signs are also posted in visible locations to remind personnel to wash hands.

Hand sanitizer with at least 60% alcohol content is provided when employees cannot readily wash their hands.

I. Cleaning and Disinfection

Employees are to keep their personal work areas sanitized. Cleaning materials and appropriate PPE such as gloves, goggles, etc. will be provided to employees and as needed.

High touched surfaces (e.g., doorknobs, sinks, faucet and toilet handles, elevator buttons, push plates, handrails, etc.) are to be cleaned and disinfected frequently.

When driving pool vehicles, special attention must be paid to surfaces and objects that are touched often by passengers, such as door handles, window buttons, locks, arm rests, seat cushions, buckles and seatbelts. Surfaces that drivers frequently touch, such as the steering wheel, radio buttons, turn indicators and cup holders must be wiped down.

Employees are to avoid or minimize using shared workspaces, office items (such as printers, copiers, fax machines, telephones, keyboards, mouse, staplers), and work tools/equipment to the extent feasible. Items that are commonly handled in break rooms/common areas such as refrigerator handles, microwave handles, coffee pots, and water dispensers should also be avoided. However, when workspaces and items must be shared, employees are to ensure that they are cleaned and disinfected before and after each use with a cleaner appropriate for the surface. If cleaning and

disinfecting before and after each use cannot be accomplished, employees must be provided with disposable gloves or other protection while using the shared equipment, or hand sanitizer (which must be followed by thorough hand washing). Employees must follow manufacturer's instructions for use of all cleaning and disinfecting products including the recommended PPE.

Note 1: If employees work with chemical disinfectants and/or hazardous chemicals, supervisors will communicate the potential hazards and safety measures as required per Cal/OSHA's Hazard Communication Standard.

Note 2: One of the following can be used to disinfect hard, non-porous surfaces:

- An EPA-registered disinfectant approved for use against SARS-CoV-2, or
- An alcohol solution with at least 70% alcohol, or
- A 10% bleach/water solution

J. COVID-19 Employee Training

A 30-minute, mandatory online training course entitled, "COVID-19 - What You Need to Know for the Workplace," is available through the Personnel Department's training website in Cornerstone. Employees can use this [Cornerstone link](#) to log on and take the training. For those employees that do not have access to Cornerstone, managers and supervisors should contact the departmental training coordinator for an electronic PowerPoint and/or a pdf copy of the presentation. All employees are expected to complete this mandatory safety training course.

Managers and supervisors must ensure there is documentation of employee completion of this training. Those employees completing an electronic version of the training (not on Cornerstone) must also fill out and submit as a proof that they have completed the training course via a GoogleForm link that is provided in the training.

The "**COVID-19 What You Need to Know for the Workplace**" course covers the following areas:

- What is COVID-19
- At risk population and how to protect yourself
- Sources and guidance to reduce the spread of COVID-19
- COVID-19 symptoms - what to do if sick
- General hygiene (cough and sneeze etiquette)
- Hand hygiene
- Social distancing
- Cloth face masks/use of PPE
- Cleaning and disinfection
- Safe work practices
- Stress and anxiety management

Managers and supervisors are encouraged to supplement this training with any respective worksite-specific procedures developed for COVID-19 prevention by the department.

COVID-19 Resources

City Resources:

- Mayor Garcetti's "Safer at Home" order, and/or City's COVID-19 resources can be found by visiting:
<https://corona-virus.la/>
www.lamayor.org/COVID19Orders
- The Personnel Department created a [COVID-19 webpage](#) of resources, FAQs, telecommuting information, and safety tips for employees which is updated regularly.
- The Emergency Management Department sends email communication to all City employees regarding COVID-19 related information and prevention tips.

SAFETY MANUAL

22.0 TAILGATE SAFETY MEETINGS

A. GENERAL INFORMATION

There are many duties that BCA employees perform that require current knowledge and training to work safely. It is the responsibility of BCA management to properly train full-time, part-time and temporary agencyⁱ employees per the Injury and Illness Prevention Program. This chapter outlines the TSM types of knowledge and training that will prevent workplace injuries.

B. TAILGATE SAFETY MEETINGS

- 1) BCA seeks to achieve 100% attendance of all meetings. BCA Executive Management will implement the following changes, starting January 1, 2017.
 - a: Employees are required to review all TSM topics published by the Bureau Safety Committee each calendar year
 - i - Field Inspectors – Bi-weekly
 - ii - Office Staff - Quarterly
 - b: Bureau's Safety Committee prepares and posts the following information on the BCA Safety Webpage.
 - i - Tailgate Safety meeting Topic list (Appendix A)
 - ii - Topic review information (a refresher of pertinent information)
 - iii - Topic review quiz
 - iv - If a Train-the-Trainer session is required due to the nature of the topic or a new regulatory topic this information will also be posted.
 - c: Supervisor
 - i - On the first TSM of each new calendar year the supervisor shall distribute Appendix A: TSM Topics to each employee.
 - ii - Instruct each employee on access to BCA Safety Webpage.
 - iii - The supervisor will review Chapter 22 with all employees
 - iv - The supervisor (or designate) shall conduct the TSM assigned.
 - v - All attendees will complete a Google App Form quiz and submit it within two weeks of their TSM.

INJURY & ILLNESS PREVENTION PROGRAM

SAFETY MANUAL

- vi - Google App Attendance will be used to record all employees present at the TSM Google Meet. The supervisor shall rename the Google sheet to indicate the District and Date.

APPENDIX A: Tailgate Safety Meeting Topics

FIELD STAFF *(All info is on BCA Safety Webpage)*

| <u>DATE</u> | <u>PP</u> | <u>TOPIC</u> | <u>ASSIGNED</u> |
|--------------------|------------------|---|-------------------------|
| TSM 401 | 15 | Cal-OSHA/MOU Related Review of 2023 IIPP | 12/31/2023 - 01/13/2024 |

OFFICE STAFF

BCA office employees will complete the following Mandatory TSM reviews and quizzes.

1st Qtr

TSM 401 Cal-OSHA & 2022 BCA IIPP
TSM 402 Accidents Illness Reporting
TSM 403 Workers Compensation
TSM 404 Standard Issue PPE – Specialized PPE

2nd Qtr

TSM 411 Hot Weather and Sun Protection

3rd Qtr

TSM 422 First Aid I - Review
TSM 423 First Aid II - Review
TSM 424 First Aid III - Review

4th Qtr

TSM 425 Safe Driving
TSM 426 Workplace Violence - Disaster Prep

BCA Inspection
division are required
to complete¹ all TSM
reviews and quizzes.

*1. Per Cal-OSHA, MOU5 &
PW Policy*

(All TSM reviews and quizzes will be available for office staff to complete on a voluntary basis)
